MARCH 11, 1946

A PAPER IN THE INTERESTS OF LABOR

ONE CENT

## No. 1 Lesson of the GM Strike:

# POLITICAL ACTION IS LABOR'S NEED!

## If We Do Not Defend Ourselves Against Violence, We Are Slaves!

AN EDITORIAL-

A man who will not defend his rights against Gestapo violence, be it in Hitler Germany or General Electric Philadelphia, is a man enslaved.

These are observations that come immediately to mind after the bloody assault of 1500 armed cops on men and women exercising their democratic right to picket. We think that the Philadelphia workers who

defended themselves against assault understood this. They did fight back. They did try to stand their ground. They have called upon the entire Philadelphia labor movement to back them up. Something, however, was missing. And we think

the Philadelphia workers will understand this. Against organized violence there must be organized defense. By organized defense we mean WORKERS' DEFENSE GUARDS organized by the UNIONS to protect labor from fascist attack. It makes no difference whether this fascist at-

tack is directed by fascist hooligans serving General Electric's interests, or gauleiters in police uniforms serving General Electric's interests. General Electric has at its disposal the injunction and police machinery of the capitalist state. Where this is insufficient, as labor's long history of struggle demonstrates, the big industrialists are prepared to hire armed mercenaries paid for by the company instead of by the city. Where that too is insufficient they will finance and organize fascist bands.

Labor has only its own strength, and that is more than sufficient to beat back attack. Ten thousand workers, led by union-organized Workers' Defense Guards, are more than a match for any 1500 thugs, regardless of the color of their uni-

us. If we but act together there is no body of organized capitalist scum on earth that can defeat

There were veterans on the Philadelphia picket line. They were in the very first ranks of the line. Labor has every reason to take heart from this wonderful sign. It proves that veterans have not permitted themselves to be indoctrinated by the brass hats' hateful anti-labor propaganda.

These veterans are men who know something about fighting. They were taught how. They were taught how to fight in the interest of imperialism. They will know how to fight in the interest of

Not so long ago they were told that they had to fight for the "American way of life" against fascist nations which would deny them this way of life. Presumably the American way of life meant the right to earn a decent living for a man and his family, the right to strike, the right to picket, the right to assemble freely, the right to speak freely. Very well. We'll say nothing for the moment

about how they lied to the people and above all to the soldiers who had to fight the war. We'll pretend to take them at their word. Is there, then, any reason why these men should not fight as vigorously for this same way of life here? Does it make any difference whether this way of life is menaced from without or within? We say it is a wonderful sign that veterans

were in the front ranks of the picket lines. We think they will know how to fight in defense of our rights with their brothers and sisters in the labor movement.

It remains for the unions to organize this de- to defend this right.

fense so that it will be most effective. Those union leaders who try to counter the reactionary policies of the Republican Pew city administration by piddling with the local Democratic Party machine will not plan such a defense themselves. (It was the Democratic Party Kelly-Nash machine in Chicago that directed the infamous Republic Steel massacre.)

It becomes the responsibility of every worker and every worker-veteran in Philadelphia to raise this question in his union and in every assemblage of workers. It becomes his responsibility to insist upon the organization of Workers' Defense Guards.

This is more than a Philadelphia matter. General Electric may be more outspoken than other big industries in its efforts to crush labor by injunction and brute force. The court and police machines of Philadelphia or New Jersey (where there has also been anti-picket violence) may be particularly amenable to industry's wishes. Other industries, and other city administrations, do not dare to loose Philadelphia's kind of Hitlerite violence against workers today. In Detroit, for example, they know that labor is too powerful.

But the problem is the same everywhere. To the extent that they can, they will try to destroy our unions. If General Electric is successful, others will be emboldened. If they do not dare at this moment to use the police force, they will scheme and plot to build fascist organizations like Gerald L. K. Smith's. The problem is the same, the need is the same everywhere.

We are not slaves. We will not allow ourselves to become slaves. It is our right to demand a decent standard of living with the weapons that are ours-unions, strikes, picket lines. It is our DUTY

For more than a hundred days the General Motors workers have been out on strike. For these more than hundred days they have carried the ball for the entire labor movement.

Theirs was the dramatic challenge to big business which initiated the strike wave. The demands they made upon General Motors, and the spirit with which they pressed them, blazed a trail which pointed to a real victory not only for themselves but for all of labor. Hundreds of thousands of workers have gotten 181/2 cents without a day's loss of work because of the heroic struggle of the GM strikers.

It is not the fault of the ranks, who in over a hundred hard days have proved the worth of their convictions, that wage raises are averaging 181/2 cents instead of the 30 cents or more required by labor. Nor is it their fault that these wage gains, in steel, meat packing and other industries, are being eaten away by price increases.

It is the fault of their leadership, of Murray and the others, who showed themselves supine before the pressure of the Truman Administration. If today the auto workers have been compelled to retreat on their demands and propose arbitration, it is not because they were incapable of winning the entire GM strike program. It is not because the steel workers, for example, would not (Continued on page 4)

## Philly Unions Vote on General Strike

BULLETIN BY WIRE

PHILADELPHIA, March 6-General constitutes first and partial victory for GE strikers. Mayor Samuel, who promised to intercede for right of strikers to parade, reneged by passing buck to Sheriff Meehan, who turned down request.

Four local unions voted to support call for general strike in behalf of GE and Westinghouse striking locals. Other locals still balloting are expected to endorse general strike call. CIO Industrial Council is sponsoring the 103-day General Motors strike this referendum for a general strike.

Monday and Tuesday this week hundreds of pickets continued to gather in the vicinity of GE plant, Police refused freedom of assembly, broke up all gatherings and forced pickets over Philadelphia County boundary line into Darby. Police have established a cordon across Cobbs Creek, preventing any attempt to enter Philadelphia by picket pa-

Saul Waldbaum, union attorney, filed suit in Federal Court in name of Clayton R. Dechant, president of Local 199, and others to enjoin the Philadelphia police and Mayor from stopping parade and charged violation of legal right to assembly. Waldbaum's suit charged an "unlawful

conspiracy" by city and county offi-

### **GM Strikers Hold Picket Line Intact**

DETROIT, March 3 - Settlement of hinged today on the reaction of the corporation to the proposal of the UAW-CIO that the three remaining points of dispute be arbitrated.

Since this article was written, GM turned down the UAW-CIO's offer of arbitration. The union later offered to poll the strikers by referendum on whether they would go back to work for GM's offer of an 181/2-cent increase, or on the condition that the dispute be submitted to arbitration. GM rejected this too. Conciliator Dewey has proposed nothing, having apparently exhausted his bag of

The UAW-CIO proposal was that both the company and the union accept the verdict of an arbitrator to be appointed by President Truman. The decision of the arbitrator would be made public within 45 days, açcording to the UAW proposal,

Here is a summary of the events that led to this latest development in the GM strike:

After weeks of negotiations, GM and the UAW-CIO remained far apart, with the corporation officials pressing to get the UAW-CIO to accept a contract similar to those signed at Ford and Chrysler.

The "final" offer of the corporation, made last Thursday, included acceptance of maintenance of membership and an 181/2 cent hourly wage increase. This offer was rejected unan-

ruary 27 and 28, after 42 Radio and Machine Workers, Local 119, the picket lines were charged by 1,500 Philadelphia cops. Pickets, many of them women, many of them veterans, were clubbed, kicked, beaten, run over, arrested and jailed in an effort to enforce a court injunction against mass picket-

The Philadelphia Local of the Workers Party, 1105 Walnut Street, has ordered 6,000 copies of this issue of LABOR ACTION for distribution to the GE strikers and Philadelphia

In the sixth week of a strike marked by good morale, mass picketing and high determination to win, the attorneys for the giant monopoly went to (Continued on page 2)

## Eight-Pager Needed for Socialist Education!

National Educational Director, Workers Party

Thousands of the readers of LABOR ACTION first came to read our paper during the war years. The paper appealed to them because it told the truth about wartime profits, about the Little Steel formula, about the no-strike pledge and about the need of labor to have a party of its own. They came to rely upon LABOR AC-TION for a "line" in the many tactical turns of the struggle.

But the steady reader has come to demand more than this. He has come to demand answers to the more basic questions. Why must the working class, which produces the wealth of the nation, constantly fight for sufficient wages to maintain a decent standard of living? Why is there poverty in the midst of plenty? Why must we live in out-dated and run-down buildings when there is enough material and skilled labor to construct decent homes for everyone? Why did we fight two wars to "end all war" with the third one

already in sight? Why were millions of lives and billions in property sacrificed in a war "against the fascist aggressors" if dictatorship, tyranny, oppression and aggression continue to rule the world

What is fascism, what causes it, who supports it and how can we end it? Can capitalism be made to work? Are we headed toward real prosperity or toward another depression? What about Russia? Does it hold out any hope for the working people? Why do the Stalinist puppets like Browder and Foster act the way they do? If there is no socialism in Russia, just what is socialism? How can we achieve it? What do the lessons of history teach us about the struggle of the working class for liberation from economic oppres-

LABOR ACTION has tried to the best of its ability to deal with all these questions. But it has seldom been able to do more than touch upon them. IT COULD DO NO MORE IN FOUR PAGES.

The immediate and pressing problems always came first. Yet our readers are right. We need more than the answers to the questions of the day. The daily press of the capitalists, with its circulation of tens of millions, can swamp us here. But there is one field in which it cannot touch us. That is the field of SOCIALIST EDUCATION, the basic answers to the questions posed above. Once the worker has come to understand the scientific method of socialist analysis, the lying and tricky propaganda of the capitalist press cannot mis-

We need a LABOR ACTION that can do a complete job of socialist education. A six months' subscription must become a six months' course in scientific socialism. For this we need an EIGHT-PAGE paper. The way to get it is to ring the bell in the \$15,000 Fund Drive. We have no advertisers or "big money" backers. We operate without making a profit. It's up to our readers. What do

The first issue of the eight-page paper will appear on June 17. On April 1 a sample copy of the eight-pager will appear so that all our readers may see for themselves what a great advance this ex-

The thousands of dollars required to make this advance must come from our readers. We appeal to every reader to send us a contribution to make the expansion possible. Make all checks and money orders payable to LABOR ACTION, 114 West 14th Street, New York 11. N. Y.

### NEWS AND VIEWS FROM THE LABOR FRONT

## Take General Strike Vote in Philadelphia --

(Continued from page 1) court to seek an injunction. It was granted to them Thursday, February 21, by Judge Finletter, notorious for his injunctions against labor in the past.

The union's first response to this action of the corporation's legal servants came on Monday, February 25, when over 1,000 pickets answered the call for a mass line in front of the plants at 7:00 a.m. The workers were keenly aware that they must break the injunction in order to win. Pickets from the striking Westinghouse Local 107 joined the GE line. Morale was high. Few cops were present, and the picketing continued without incident.

Again on Tuesday the mass line assembled and walked the two blocklong circle without incident. The pickets chanted lines from the song "Talking Union" - "The boss looks out the window and what does he see, but a thousand pickets and they all agree-He's a bastard, unfair, bet he beats his wife." "We can't be licked with this kind of a line," was the sentiment of the pickets.

#### COPS OUT ON WEDNESDAY

On Wednesday, facing the strikers, on each side of the wide street on which GE extends for three blocks, were 1.500 cops, mounted, on foot, in red cars and 'motorcycles-the greatest number of police mobilized in one area in the history of this city. This army of cops was out to protect the interests of the monopoly millionaires against the unarmed workers who had only their strength and determination to win.

The 1,500 pickets assembled in Buist Park, three blocks from the plant, to prepare a march past the plant on Elmwood Avenue. In the vanguard were veterans from Local 119. Behind them ranged the ranks of UE Local 119 (GE), Local 107 (Westinghouse), Local 113 (Exide) and additional men from Baldwin, SKF and other plants.

At the end of the plant the order was given to turn. No more than ten or twenty ranks had turned about when the mounted cops came charging down the street and ploughed into the front column of the GE vets.

"The Battle of Elmwood Avenue" was on. The clubs started to swing, the horses forced the pickets to one side of the street. The cops charged viciously into the group of vets clustered about the flag. The vets fought but were finally pushed back.

In the midst of this central melée, a group of militants from Local 107 -the now famous "Minute Men of 107"-bolted out of the group and ran for the fence around the plant to attempt to form a line again. This small group was cut off by another charge of the Cossacks. These men and a few others, seven in all, were arrested and held incommunicado.

After the main parade was completely broken up, the motorized and mounted cops chased the pickets down the streets for several blocks and into private homes, swinging their clubs on their selected victims. The brutality of the cops had won the day for them. The pickets then went to the police station to demand the release of their comrades. Those

on the outside could hear the faint fic halted: neighbors came out to strains of "Solidarity" from the seven in the jail. After a few hours the men were released on a writ of habeas corpus, and the men went to their union halls to prepare for another day.

"BATTLE OF THE BRIDGE"

On Thursday the pickets began to gather in Buist Park again from 7:00 o'clock on. This time the police would not even permit them to assemble, but forced them to move on. They walked a few blocks away into Darby (out of Philadelphia county) and there assembled their forces for another march. Again the veterans were in the vanguard. Behind them came the Minute Men of 107, and in close order the marching workers of Westinghouse, Philadelphia Transportation Co., other UE and steel locals and members and veterans of the Workers Party, 3,500 men and women marched, wary and waiting for an attack.

Quietly they moved down the main avenue; trofleys were stopped; traf-

a busy night in the palatial Berkeley

Bowl at 2777 Shattuck Ave., in Berk-

eley, Calif. The big balls were rum-

bling down the glistening expanse

of all sixteen alleys. The gallery was

filled with would-be players waiting

for their turn. Every now and then-

a party would finish playing, and the

loud-speaker would call out the

waiting number of the next party.

speaker. Five or six people got up

from the spectator seats, walked up

to the manager's desk and got their

score-sheets and bowling shoes. The

pins were already set up in the alley

assigned to this party. They selected

their balls, lifting them and trying

them out for weight and finger-hole

comfort. The first player rolled his

ball, and knocked down seven pins.

And then a strange thing happened.

pin-boy. In fact, the pin-boy seemed

to have disappeared, and the lights,

which are always on when an alley

The party sat down and waited.

Perhaps the pin-boy had gone out

for a smoke? Members of the party

lit up cigarettes. They finished their

cigarettes . . . still no pin-boy. Final-

ly, a couple of them went up to the

manager and pointed out that there

was no pin-boy to serve them. The

manager said. "I'll go see what hap-

pened to him." The party waited.

After a while the manager returned.

"He has knocked off for the evening,"

he said. Members of the party looked

at their watches. It was only ten

o'clock. Still two hours before the

bowl was to close, and the gallery

full of people waiting to bowl. "Well,

they said. The manager looked sullen,

finished their game. No sooner had

they left than the lights over the al-

ley went out, and the pin-boy disap-

peared. By ten thirty or eleven

had closed down for the night. The

o'clock ten alleys out of the sixteen

but said nothing.

the next available alley,

After a few minutes another party one, that is, except the manager and

is in use, went out.

The ball was not returned by the

"Number 36" boomed out the loud-

watch or join the marchers; occasionally the vets would start shouting slogans or singing songs. "Rome, Berlin, Tokyo and now Philadelphia"; "GE can't run Philadelphia"; "All we want is a raise in pay." "Did we fight the fascists to get clubbed by cops?" Groups sang "Solidarity" and

"Hold the Fort." Block by block they marched. At each corner they saw hundreds of cops in cars blocking the way. Suddenly a weak link in the police cordon was found. The parade turned sharply, bowled over the few foot cops who stood in its way, knocked the clubs out of their hands and proudly marched on.

At the end of the street the strikers met another solid police barricade, marched directly up to it, and turned left. The tension was tremendous. The strikers were quiet with hesitant expectancy - not knowing what would come next. The parade closed ranks and proceeded until it came to the bridge at 65th Street and Paschall Avenue. The path looked

BERKELEY, Calif., March 2-It was ing to bowl, and the party with num- closing down ten alleys one night and

ber 36 was still waiting for a pin-boy

again. "We are still waiting to bowl,"

they said. "I can't help it if the pin-

boys won't set pins," he answered.

"But is it customary for the boys

to knock off at ten thirty?" they

asked The manager continued to an-

swer like a broken record: "If they

won't set pins, they won't set pins."

This was on Monday, February 18.

The following Monday, the same

Mysterious Goings On repeated

themselves. Only this time there were

two parties who seemed to paralyze

the pin-boys. In the Berkeley Bowl

each boy sets pins in two alleys. But

when either of these two parties

would try to bowl in an alley, the

boy would suddenly discover that

all he could really handle was one

at a time, and as chance would have

it, it was not the alley in which these

of the situation, and the broken rec-

ord came on as before. "If they won't

set pins they won't set pins." By

nine thirty on the second Monday

night, four alleys were closed, the

lights out, no pins set ... and the cus-

ular parties which made the pin-boys

knock off for the night, or decide

that one alley at a time was enough

as soon as they showed up? They

looked like ordinary people. They

were quiet and well-behaved, neither

disorderly nor drunk. In fact, they

were so much like all the other bowl-

ers that no one in the Berkeley Bowl

started going out over the alleys

where they were trying to bowl. No

his employees, the pin-boys. It is

quite possible, of course, that the

manager, on looking closely, may

have noticed that among the mem-

bers of these parties were a few Ne-

groes. But surely this observation

What was it about these partic-

tomers were waiting in the gallery.

Again the manager was informed

parties were trying to bowl.

They went to talk to the manager

Calif. Jim Crow Bowls 300

who would serve them.

open. Not a cop in sight. Suddenly a police acted as an infantry in the column of mounted cops at full charge led by motorcycles at full speed tore over the bridge, into the ranks, clubs swinging. The strikers fought with bare hands against horses, clubs and motorcycles. They fought heroically, with courage born of their sense of solidarity. Every man in those ranks will long remember those courageous moments of

fierce struggle.

The forces of law and order, 1,500 trained soldiers of the corporations, against unarmed men and women seeking a wage raise, led and organized in battle array by the notorious police Labor Detail, were ferociously enforcing the property rights of the corporation against the human right to a decent living, the right to a decent wage, the right to assemble freely, the right to strike and picket.

The men broke through the cops, and then attempted to reform their forces to continue the march. But the "heroes on horseback" pursued relentlessly. They selected victims and chased them for blocks. The foot

four another while the gallery was

still full of customers waiting to

cussed the rout. They wanted a all they spoke of the need for organized and carefully planned deas day that the police, the governpolitical action.

own-an Independent Labor Party.

On that same night the Philadelphia Industrial Union Council met to discuss the events. They passed a resolution calling upon the locals to prepare for general strike action and wired Philip Murray to come to Philadelphia and authorize such an action on the part of all the Internationals involved. Not a voice was raised in opposition to the proposal. This solidarity was an expression of the desire of the ranks for a real show of AKRON strength. A union veteran from New Jersey said: "God, if I had known, there would have been 10,000 vets jamming the ferries from Camden."

But solidarity alone is not enough. It only signifies the determination of the workers to win the struggle, their readiness for a showdown with the forces of reaction. Clarity of thought and action are required for victory. A new program is a necessity. The men know now that the fight of a worker anywhere is their fight, that a fight for higher wages now involves the intervention of the government. They must learn that the necessary conclusion is to replace the capitalist government by a workers' government. They know now the picket lines are our ons. If militant action is the theme of the picket line, if defense guards are formed for their protection and if a labor party is formed to act as their political voice—then victory is assured. Out of it will come a new labor government for Philadelphiaan aggressive and aroused movement, alive to the issues at stake in the

#### DEFENSE GROUPS NEEDED In dispersed groups the men dis-

planned defense, an organized strategy, leadership on the spot. Above fense groups. The men saw as clear ment and the company were acting together. The rights of the workers were nothing when opposed to the million dollar property rights of the corporation. The judges, the sheriff, the police, the legal and military arms of the government, were opposed to them for asking for their human rights. They spoke of "driving out the drones in City Hall-come November." They talked of "putting our boys in office," of the need for labor

The union leadership is attempting to deflect this understanding into as against the present Republican administration. The men might well ask: "Is the Democratic Party supporting our strike and defending our picket lines? Is it in any way different from the anti-labor Republican administration? Are the cops' clubs any softer in the cities run by Democrats, like New Jersey City and Newark?" Injunctions are issued in Democratic New Jersey, too. Picket lines need defense guards. In politics workers need a party of their

fight of any worker any place.

### URW's 18.5c Will Vanish in Price Rise

AKRON, March 4-The United Rubber Workers, CIO, and the representatives of the Big Four rubber companies, Goodrich, Goodyear, Firestone and U. S. Rubber, have reached agreement on the URW seven-point. program which originally demanded, among other things, a 30-cents-anhour increase, a 30-hour work week, night shift bonus, etc.

From the information that was released to the URW membership vesterday, it would appear that most of these points were dumped by the conservative international leadership in order to get an 181/2 cents an hour increase with 12 cents of it retroactive to November 1. This 181/2 cents really represents considerably less to the rubber workers than the insufficient 181/2 cents won by the steel workers because of the shorter work day in effect in the rubber industry

On-the-job rates are to be negotiated at plant levels between local unions and their respective companies to adjust obvious inequalities in rates. They also gained agreement support for the Democratic Party to double time pay for work done on Sundays and national holidays. This gain, however, while fine in principle, does not represent much in this period, since there is almost no Sunday work scheduled for production workers. Maintenance workers alone come under this provision today because of the drop-off in production.

#### PRICE RISE NEXT

In return for the 181/2 cents the joint union negotiating committee gave up the demand for overtime for everything over six hours a day and 36 hours a week, gave up the demand for an additional night shift bonus and agreed to allow the rubber companies to submit the 181/2 cents agreement to the National Wage Stabili-

they may demand price increases to "adequately" cover the wage raise.

The Akron Beacon Journal said in its headline story: "Office of Price Administration officials have been notified of the rubber wage increase agreement and are ready to consider immediately price increases on the basis of it." It is also reported that the 181/2 cents will stand irrespective of any decision by the stabilization board concerning what portion of it may be used as the basis of request for price increases by the companies.

Of one thing everyone may rest assured-the full 181/2 cents will be allowed by the board as a good and just reason to skyrocket prices. The representatives of the Big Four rubber companies may well have had guarantees of this before they agreed to give 181/2 cents to the URW.

In the face of this we recall to mind the financial status of two of the Big Four as reported in their financial statements for the past year. Goodyear's net profits of \$15,-136,816 were only about \$67,000 less than in 1944 in spite of the fact that \$2,500,000 was set aside for reserves. Goodrich's net income of \$12.313.501 was nearly \$300,000 higher than in 1944. There can be no question of a real ability to pay for more than the gains registered by the union.

That the rubber workers yielded their seven-point program in winning the 181/2 cents that will be wiped out by price increases is the result of timid and conservative leadership. This leadership had neither the courage nor the foresight to make such demands as the GM workers made when they said: "We want a wage and if you say you can't pay it then we demand you open the books so that we may investigate how you are

#### **Finds No Prosperity** In Texas. Oklahoma

I have just returned from a hitchhiking tour of Texas and Oklahoma ... am of the opinion that my observations might interest you.

War prosperity in these regions, by and large, is definitely a thing of the past. Only in Dallas did I find any particular demand for labor ... and this demand was for dishwashers. Dallas has the same problem as many other cities; farm workers who came

to the factories and refuse to return. The wage scale for cowhands runs from \$75 a month to \$150 for a foreman. At times a room is included in this, but never furnishings or food.

The boll weevil seemed to be active in North Texas this year and has taken a good amount of the cotton. This section has much very rich land and the units of production are large business farms, or plantations. The sharecroppers are farther east. But the prosperity of the plantations determines the prosperity of the small villages and workers to a large degree. The prospects are far from bright, particularly when it is considered that there are still many years of surplus cotton stored in the

government warehouses. The land turns from rich black loam to dirty red clay almost at the Texas-Oklahoma border. The houses are small, frame, unpainted affairs and it is obvious that the people living in that vicinity haven't known prosperity for many, many years.

and other eastern corporations. I talked to two men who worked in the field east of Seminole. Their top pay in recent months had been \$150 per month and they were skilled night. . workers. Two weeks before our conversation six out of their crew of fourteen men had been laid off. Veterans were not getting their old jobs

I spoke to a truck driver who was working only three days a week. He sat on a wooden box before his ramshackle house and mended a pair of worn-out boots. He said he wasn't married; since getting out of the service he hadn't been able to save up enough money.

In Laredo waitresses usually get \$14 for a 56-hour week, food included. This works out to about \$9.00 cash, or something less than 25 cents per hour. Wages at the two best hotels are somewhat higher-\$12 per week plus food.

in a North Texas town of about 35,000 population claimed that he could have any one of six jobs-all paying \$21 a week. He had enlisted in the Navy for three years, explaining that it was impossible to live on the \$21 and support his wife. In Austin and Dallas, Texas, and in Oklahoma City I was asked to register two names at the hotels where I

first stopped. They refused to rent

their rooms unless I paid the OPA

price for two instead of myself alone.

In Fort Worth I decided to hit the

bottom in accommodations and stayed

A college graduate to whom I spoke

To the north there are great oil in what would have been a 10-25fields owned by Cities Service, Gulf cent flop house some years ago. I shared the room with three other people and paid \$1.50 for the privilege; it was designed for twelve, two in a bed, but it was evidently a slow

P.S.-I note that Pic (the magazine for young men) shows a picture of a bedroom and suggests "chests, shoe and storage cabinets and dressing table, painted light raspberry to match carpet, palest pink walls and flowers." That, LABOR ACTION, is why your circulation isn't what it should be: you fail to inform the proletariat that bedrooms should be painted palest pink and raspberry.

> Yours. John M. Barb.

In China Article Dear Comrade: In a recent issue of LABOR AC-

**Disputes Points** 

TION, an article by Comrade Gates on the subject of the alleged "civil war" in China refers to Yenan Province (that section of China dominated and controlled exclusively by the Chinese Stalinists) as an extension of Soviet Russia; that is, presumably, a bureaucratically collectivized territory similar to the Baltic states in Europe.

This statement, as can be verified,

is not correct. In their area of China,

the Stalinists have not nationalized

(or even distributed) the land; they

have not collectivized the slight in-

dustry that exists; nor have they ex-

taining the social structure of semifeudal, capitalist China, I refer the interested reader to a lengthy article in "Science and Society," Fall, 1945, pages 309 to 317, "The Government of Yenan," by Yung-Ying Hsu; 'also, the various books of Edgar Snow on China. The Chinese Stalinists operate in a political and social "bloc" with the landowners and merchants. Of course, this has nothing to do with the political correctness of Com-

rade Gate's article, in which it was demonstrated that the "civil war" in China had nothing whatever involved in it worthy of the support of China's workers and peasants, but it is important to understand fully what the Chinese Stalinists are up to, and how they conduct themselves even at "home." Now that they have fully capitulated to Chiang-kai-shek on the question of the new government (even to the point of endorsing the phoney "Democratic Assembly" appointed by Chiang's party!), and the question of a possible "civil war" has vanished, it is worth knowing that these people have not the slightest claim to any pretext of "progres-

HENRY JUDD

Dear Comrades: It is impossible for me to take up

the argument made by Comrade Judd

siveness."

Assuming these claims, the point of my article was to show that it could only follow the pattern of Stalinist nationalization and collectivization which would not make it ipso facto a basis for the support of Stalin's Chinese representatives in what some people mistakenly refer to as another Chinese "civil war." But Judd is wrong when he says that the Chinese Stalinists have "fully capitulated to Chiang-kai-shek" in any of the fundamental senses in

on whether or not nationalization or

collectivization has actually taken

place in the Yenan province. The ref-

erence to it in my articles was based

entirely on the claims made in the

Stalinist press in this country and on

observations of some fellow travelers.

My present circumstances make it

impossible to check this material.

which he indicates. Nor has the question of a "possible 'civil war' . . . vanished." On the contrary, all of these things are inherent in the situation. Circumstances also prevented me from following up my original article so that I might show that the agreement reached between Chiang and the Stalinists was only provisional. This could have been ascertained from a careful reading of the Stalinist press in general and the articles of their new "international expert," Joseph Starobin, who warned against any jubilation over the announced agreement. The attitude of the Stalinists was: we will wait and see. There is nothing in their conduct which is in conflict with Stalinist internation-

### **Getting Righteous About Russia**

While every American worker has an ear cocked to the anti-labor actions of the governmental servants of big business-the Case bill, the rash of injunctions, FEPC filibustering, etc.he is likely to be deaf to the machinations of government in the current game of international power politics. Organized labor is vigilant and bold in its economic struggles. It is beginning to develop awhigher social consciousness in domestic politics. It retains a blind spot in world politics. Yet in this Atomic Age, in this era of the international division of labor, what happens to the world labor movement is of decisive importance to U. S. labor.

The hired representatives and diplomats of big business comport themselves in the international arena in the same fashion as they do at home: they defend the interests of capital against the little people of the world. The workings of U. S. foreign policy are perhaps most difficult to expose, because her imperialist methods are most subtle and her path is everywhere paved with dollars. She has had, least of any country, to resort to outright seizure, military intervention and the type of unconcealed imperialist rule that Britain and, more latterly, Russia have found necessary. It is in such a context that Secretary of State

"We have no right to hold our troops in the territories of other sovereign states without their approval and consent.... No power has a right to help itself to alleged enemy properties in liberated or ex-satellite countries before a reparations settlement has been agreed upon by the Allies.... We must not conduct a war of nerves to achieve strategic aims."

James F. Byrnes can sound off to this effect:

This speech of Byrnes, abetted by those of Republican Senator Vandenberg and Truman's consultant, John Foster Dulles, was directed to Russia, whose interests collide with those of the U.S. Byrnes' outspoken declaration is the culmination of a series of Big Two wrangles, compromises and horse-tradings that have been aired at Yalta, Potsdam, the London conference of the foreign ministers and the meeting of the United (!) Nations Organization. These quarrels signify that the defeat of the fascist nations, while it removed one set of combatants, did not end the imperialist rivalries, but that, as LABOR ACTION and the Workers Party have always maintained, these conflicts are inherent in capitalism.

Not that Russia and the United States can risk the danger of war tomorrow. Not while the memory of over 60,000,000 casualties is still fresh in the minds of the millions of people who were duped into supporting the Second World War because it would destroy the "aggressor" nations. Also, the victors need a breathing spell, they need time to digest the spoils of war. Hence, the conflicts among them are now confined to peaceful means: mobilization of public opinion against rivals, spy-scares, diplomatic threats, brandishing the atomic bomb,

The main weapons of the United States in the conflicts over profitable markets and sources of raw materials are her great wealth, backed by a supreme military might and her technological su-

NEW YORK LECTURE:

Speakers:

periority, which enables her to produce cheaply and swamp her competitors. Hence she wants an "open door" in every sphere of international trade to permit her economic penetration.

Britain, the junior partner of the U.S., is trying desperately to cling to her colonial holdings, where her favored position and empire agreements counterbalance her technological backwardness and financial bankruptcy.

Russia, a unique imperialism, based upon collectivized property in a relatively backward and undeveloped country, has to employ the primitive, predatory methods of plunder against which Byrnes inveighs. Her major weapon in the current conflict is the "Communist" International, a blackmail instrument of Stalin's foreign policy.

The sorest points of conflict are at present in Manchuria in the Far East, and in Iran in the Middle East. Russian armies are present in both areas, and Stalin is reluctant to order them out. Byrnes shouts: no troops in "sovereign states without their approval and consent." But what about American troops in China? Ah, but we have the "approval and consent" of Chiang Kai-shek. It only remains to be pointed out that this dictator's hold upon the Chinese masses is cemented with U. S. financial and military assistance. Byrnes can afford to be righteous in defending the interests of U. S. capital and ordering Russian withdrawal from our preserves in China, that vast source of profitable trade for the big corporations.

Russia is also reluctant to withdraw her troops from Iran, the world's fourth ranking producer of oil, where the U.S. and Britain already have concessions. Russia may even come close to getting the "approval and consent" of the sovereigns of that impoverished country which has too long suffered the blessings of oil imperialism.

But Byrnes says nothing about the presence of British troops in every corner of the far-flung British Empire. What about India. Mr. Byrnes? What about Indonesia, Indo-China, Egypt and Palestine, where the masses of the people are throwing bare bodies, hand-made bombs and rifle fire against tanks and Spitfires as a signal of their "approval and consent" to the presence of British troops? (And, likely as not, every time a native fires at a British Tommy, he may shoot a U. S. soldier or hit a U. S. tank made in Detroit.) Didn't the Atlantic Charter promise self-government to all peoples, Mr. Byrnes?

And what about Russia's grabs prior to the end of the war? Were the "consent and approval" of the Poles, the Yugoslavs and the Baltic peoples obtained for the presence of Russian troops there and the forcible annexation of those countries to the bureaucratic collectivist empire of Stalin? Or are they merely Russia's "reward" for participating in the Allied camp in the war?

We can't expect anything but hypocritical mutterings from Mr. Byrnes. But the organized labor movement should realize its responsibilities internationally. It owes allegiance to its own class, abroad as well as at home. It should inscribe on its program, first, the return of all U. S. troops from foreign occupation duty. It should demand immediate freedom from imperialist domination and the right of self-government of all colonies.

## One-Tenth of the Nation

Greeport and Columbia Murders

By J. R. Johnson

Island, a boom town of the war industries, a policeman killed two Negro boys and wounded a third. They were brothers and all either at present in the armed forces or recently discharged. It was cold-blooded, deliberate murder. The consequence was an explosion of social tension. Immediately after the shootings, the police found it necessary to throw a cordon around the Freeport bus, terminal, and men with tommy guns and tear gas were placed at strategic points to "await a possible uprising of local Negroes."

Today the nation as a whole is further startled by what has taken place in Columbia, Tenn. A Negro woman and her son, Jimmy Stevenson, a Navy veteran, resisted slander and attack by a white man. Word spread in the Negro community (known as Mink Slide) that the whites were coming to the settlement to get Stevenson. Stevenson took shelter in the home of neighbors and the rest of the Negro community mobilized to resist the arrest, which they feared would end in a lynching. The police came to Mink Slide with pistols blazing.

Between 8 p.m. Monday, February 25, and 8 a.m. Tuesday, a bloody riot raged in Columbia. Armed Negroes swarmed to the defense of the Negro district, barricading their stores and homes. Policemen, National Guardsmen and State Guardsmen not only raided the homes and businesses of the Negroes, but riddled them with a scale exceeding those which took democratic rights."

The great struggle of the Indian

seamen of the Royal Indian Navy has

been temporarily quelled by over-

whelming force, and the efforts of

the Indian people to win their free-

dom have shifted elsewhere. The sea-

men have been forced to surrender

and return to work, despite the ef-

forts of the people of Bombay, Kara-

chi and New Delhi to come to their

but the seamen have not been defeat-

ed-they have retreated. The strike

committee has announcd it would im-

mediately renew the struggle if a

single one of their comrades is pun-

ished or victimized for their actions.

Meanwhile, a general strike in the

harbor city of Madras, by the tex-

tile workers, took place in support

of the Indian seamen, while revolts

were likewise reported among sol-

diers of the Indian army. The strug-

gle for India's independence is by

But, at the same time, we must rec-

ognize the fact that never was a rev-

olutionary struggle so betrayed and

sabotaged as was the week-long re-

volt of the Indian seamen! The 7,000

sailors who, defying the threats and

violence of the British, organized

their committees of action, went out

into the streets of the harbor cities

and demonstrated in face of the police

no means over!

The revolt has received a setback,

By HENRY JUDD

On February 4, in Freeport, Long machine guns. Among the arms used place when the soldiers were away by the Negroes were many which had been brought back from Europe by discharged Negro veterans. Captured were six double-barreled shotguns, nine single barreled shotguns, one German machine gun, several knives and many hundred rounds of ammunition.

> When the toll was taken Tuesday morning, there had been ten persons wounded, four policemen, four white townsmen and two Negroes. Over 65 persons were arrested, all Negroes. Armed bands of whites rambled through the town. Five hundred guardsmen patrolled the streets. While the white administration of Columbia was promising the Negroes that these guardsmen were for their protection as well as for that of the whites, two of the Negro prisoners were murdered in the jail.

#### WHAT THEY SIGNIFY

I want to draw attention here not only to these incidents themselves but to what they signify. It is clear that such explosions are evidence of a tremendous underlying social tension revolving around the race question. Observers in Harlem and in other towns report that evidences of the feeling which preceded the explosions in 1943 are once more noticeable. This time, however, the presence of Negro veterans, trained in the use of arms, some of which they have brought with them, creates the possibility of bloody conflicts on

were openly sold down the river by masses for demonstrations of sympa-

from home It must not be thought that the incidents and their repercussions are confined to Freeport or Columbia.

Negro communities all over the country are seething with indignation. The NAACP and other Negro organizations are as usual protesting mightily but doing nothing to mobilize the great masses of the Negro people in demonstrations which can give effective force to the rage which consumes them.

The Workers Party joins in the protests which have arisen from all party of the country among whites and Negroes alike at these examples of American capitalist vandalism. For the time being I shall quote the last paragraph of my column of February 25 which dealt with the attempts of Negro veterans in Alabama to exercise their voting rights.

"Among these Negroes are some of the forces for the socialist revolution in the United States. For the moment their consciousness may be circumscribed within the limits of their own special problems, but they are men who have seen the world and have been trained and disciplined in a hard school. With flexibility and understanding, the revolutionary movement will not find it difficult to share the trials which await them and bring them to the knowledge that nothing but the overthrow of bourgeois society will give them full

thy and solidarity-in a word, any-

thing that would help their cause-

these leaders, both Congress Party

and Moslem League, lined up with

the British authorities and openly

sabotaged the people's struggle. This

is the basic reason why the British

succeeded, once more, in clamping on

the lid and why they can report a

return to "normality" in the cities.

The Congress and Moslem leaders,

of course, were particularly anxious

to quiet matters because the new

## OFE LIMITS

By JAMES M. FENWICK

General Bradley, administrator of Veterans Affairs, recently made public figures on veterans' unemployment which are of more than passing

There are 1,000,000 veterans unemployed. In addition, there are 1,500,000 veterans who are "not yet actively seeking work." Further, Bradley revealed, "the unemployment rate' for veterans in the labor force is about three times as high as the rate for the civilian labor force as a whole."

The first point of interest is that despite the enormous strides made in industrial reconversion and despite the large market for consumers goods which exists, United States capitalism is proving unable to furnish work for all those who desire it. Already United States labor is beginning to feel the effects of the enlarged and improved plant equipment created during the war-improvements which were made at the expense of the necessary working force.

What is foreshadowed here is the permanent army of unemployed which characterizes capitalist production in the United States even during the best peace-time years.

#### THE VETERANS' PROBLEM

The second point of interest is that unemployment among veterans is three times as great as among the civilian labor force as a whole. This is due not only to the competitive advantage enjoyed by non-veterans, who had access to the jobs sooner and had more experience, but to a conscious discrimination by many employers, who have found veterans "unstable"—that is to say have found the veterans the most uncompromising in pressing union demands against the employer.

The danger in this situation, and a danger which can become acute in the future, is that the "civilian" worker will be pitted against the worker who

Capital has already made more than one attempt to do this in an effort to divert hatred from the system of capitalism itself, which is the root cause of unemployment, to sections of the working class. Veteran is pitted against civilian worker, and the civilian against the veteran.

#### SEEDS OF FASCISM

This problem existed in classic form in Germany following the last war. Out of the unemployed soldiers, and especially out of those who had been so disoriented by the war as to be unable to settle down to normal living, were combed elements who later helped constitute the fascist movement, which later destroyed the organized labor movement in Germany.

One of the dangers inherent in such a group of unemployed as the 1,500,000 veterans who "are not yet actively seeking work," and many of whom are psychologically demoralized, is that they will fall into this method of thinking.

#### WHAT MUST BE DONE

That is why it is so important for the labor movement to take up and fight for a full program of employment for ALL workers, including the veterans. Labor can afford to overlook the problems of the veterans only at the price of creating a dangerous anti-labor force.

That is why civilian worker and veteran alike must fight for socialism, which alone can end unemployment and war, and the pitting of one worker against another.

**Blackmail Game** 

## Yalta Secrets Come to Light

of Humanity Conference by Roosevelt, Stalin and By Max Shachtman Churchill seem to have no end. Every few weeks a new "secret of Yalta" National Secretary of the Workers Party is produced. We list the latest:

10 Cents per Copy

25 Cents per Copy

1. The decision to give Russia three votes in the United Nations Assembly, and 2, the decision to give the United States three votes in the

These two decisions are now revealed to have been made at Yalta on February 11, 1945. But on March 4, 1945, Secretary of State Stettinius, who was present in Yalta when the above decisions were made, brazenly told newspaper reporters that "All nations will have one vote each on a basis of sovereign equality."

When rumors began to leak out about the three-vote deal, Roosevelt was forced to admit it in the newspapers. A howl went up immediately. Roosevelt played smart, switched position on three U.S. votes, and said he had no control over Russia's de-

The secret deals made at the Yalta time with another statement that memory on a deal of this type is "The only other decision reached at Yalta and not made public in the Crimea Conference communiqué related to initial membership in the international organization when it meets, and to trusteeship." But events since have proved that the Stettinius statement was so far from the truth that one wonders why he didn't stick to his usual diplomatic double-talk instead of making an outright state-

conferences? Who knows what secret power deals are being made at THIS MOMENT in secret diplomatic conferences that the people

#### tors make a revival of the seamen's **For Peace Draft** mutiny and a continuation of the struggle, inevitable. The revolt of Instead of supporting the seamen, India's 7,000 sailors will go down as By JOE LEONARD and British troops, these 7,000 sailors calling upon the Congress Party a great event in India's freedom fight. March 2, 1946, is six months after V-J Day. To

millions of servicemen it was a long awaited anniversary. "The duration plus six months." That's the phrase millions of men had written in their hearts through years of infested jungles and booby-trapped villages. "It's only for the duration plus six months" they said to themselves again and again, and said it again in their letters home. But the government fied to them.

The Selective Service Law prescribes that men shall be released from involuntary servitude within six months of the end of the "duration." But today, although the legal period has elapsed, they are still keeping men in, even men who have been overseas for a year and longer, many of whom without the formality of a peace have seen combat and been wounded in action.

#### A RANSOM VOTE FOR CONSCRIPTION Why did the Administration first claim they

were discharging men as fast as possible, and then later admit that they were deliberately holding men? The GIs who demonstrated all over the world were lied to, and when the lie was out, they demanded some honest answers to some honest questions. All they got were some vague statements rights in the Chinese coastal cities of from Gen. Eisenhower. The question remains to be Port Arthur and Dairen. Another answered: what's behind the demobilization slow-

The first and main reason is this: the Adminis-Who knows how many more deals tration is using servicemen who want to get out were made at Yalta and the other as hostages, just as though they were kidnapped, and the ransom note reads, "You'll have to ransom the freedom of these men by giving up the freedom of other men to take their places." President Truman and Gen. Eisenhower know that the American people are against peace-time conscription and against a large standing Army. The editor of Yank magazine's mail column

stated that two-thirds of the soldiers were against continuation of the draft in peace-time. So the brass hats try to change the men's minds with, "Let us draft replacements, so we can send you home." It isn't working, though. The American people in and out of uniform will not be browbeaten into accepting a law they suspect.

We should demand a people's referendum on peace-time conscription. That is the way to democratically decide the issue.

Most of the war-time regulations were repealed without declaring the duration. But not the Selective Service Act. Some war powers of the government, like price-ceilings, have been declared desirable on their own merits and are continued very much changed, into peace-time. But the government still preserves the legal fiction that the duration is not yet reached-in order to force through a law on peace-time conscription. They are afraid to come out and tell the American people what the real reasons are for conscription.

#### French Government Against Wage Increases the proposal of Saillant was held to

The French situation becomes

clearer day after day. We now have a government with a socialist-communist majority. Its platform is: no raise in wages, no raise in prices, and savings, savings, savings. Savings on the army budget (but the generals do not want this and the ministers cannot challenge them); savings on officials, etc. This deflation was, until now, the platform of the right-wing parties (between the two wars, Poincaré in 1926 and Laval in 1934). Now it is, however, the platform of the "socialist," André Philip, with the support of the "communist," Maurice

Thorez, and other leaders. . For little people, this platform

means: rise in indirect taxes (already imposed on tobacco, railroad fares, soon on postage stamps); rise in prices (meat, and soon on bread, because the government wants to save the subsidy now being given to the producers).

The first result of this policy was seen last week with the strike of the printers, which prevented the appearance of newspapers for several days. The strikers were supported by nobody except the PCI (French Trotskyist Party), and they received a delegation from the PCI. The strike was arbitrated by Louis Saillant (reformist labor leader of the CGT-General Federation of Labor) and the strikers went back to work. But

cause "no raise in wages" is allowed! The printers are very bitter against the PCF (French Communist Party). This is very interesting because the printers' union has for long been a very progressive union. The great hope of the French gov-

be unacceptable by the "communist"

labor minister, Ambrose Croizat, be-

ernment is the trip of Leon Blum to America. If he comes back with dollars it will be good, if he comes back without dollars it will be bad, very bad indeed for Gouin, who is the puppet of Leon Blum!

## AID THE **GENERAL MOTORS**

• The heads of families, mothers of children, veterans—all those courageous men and women who man the General Motors picket lines—are carrying the ball for all of organized labor, and the consuming public as well.

 For over 100 days they have gone without work and without wages — in an effort to heighten wages, and keep prices down. Now they are all on their uppers, some of them selling their basic household necessities.

. It is up to every reader of LABOR AC-TION to assist them. Union members, call upon your local to send funds to aid these heroic men and women. Many of you have already received wage increases without a day off, because of the efforts of the GM strikers.

Send contributions to: GM STRIKE COMMITTEE, DETROIT, MICHIGAN

come "radical" once again.

Now however, the Rank and File to the pressure of the rank and file

the Truman fact - finding committee recommendation (after the union had assembled more facts than GM or the government could possibly lie their way out of), for not aggressively defending the GM program against the leadership of the Auto Workers International and against Murray, for not openly and actively opposing company security provisions in the Ford settlement. That he could have mobilized wide and decisive support in the auto union for the GM program is demonstrated by the authority he commands despite his retreat, as indicated in the election of a Reuther slate for the UAW convention in Thomas' own Chrysler Local. In many instances he is acting cringingly where he should be acting aggressively.

The situation today in GM is that the corporation has refused arbitration and rejected the type of membership vote proposed by the union. It appears as though the issue will be decided by the government in one way or another. And that is the point we want to come to.

#### A VITAL LESSON

In every issue that confronts us today, not merely in the GM strike, we see the hand of government. More and more it is becoming the practice to debate labor's disputes with government representatives of industry, rather than with industry itself. Government intervention is generally established practice. It was Truman, the head of the government, who dreamed up the most recent "Big Steal" formula fixing wages far under what labor demanded and needed. It was Truman, the head of the government, who permitted industry's breakthrough on prices. It was Truman's "fact-finding" procedure that cut GM demands from 30 cents to 191/2 cents. It is Truman, or his appointed agencies, who will probably decide the outcome of the GM strike now!

For several weeks now we have used one phrase in LABOR ACTION to describe these happenings: WHAT LABOR HAS WON ON THE PICK-ET LINE IS BEING STOLEN FROM LABOR IN WASHINGTON! That is, industry didn't hand out even the miserly 18-cent wage raises freely or willingly. It had to give them because labor demonstrated its temper on the picket lines. It gave what it did because price boosts more than made up for the wage boost, and because labor's leadership was prepared to against labor. As the months go by, yield the real picket line demands under government pressure.

> So, too, the wage increase of the GM strikers will be eaten away, stolen, by price increases. And if, as

sharply for looking to the White is likely, the GM contract will be bet-House for direction, for agreeing to ter than other union contracts, it will only be because government agencies will hesitate to trifle too much with men and women who spent more than a hundred sacrificing days on the picket line. CONCLUSION IS CLEAR

What conclusions do we draw? The conclusions, it seems to us, are obvious: The government is an instrument of the capitalist class. It serves their interests. It acts "against" capitalism only to the extent that it protects capitalism from the wrath of workers by small concessions. To depend on this government to settle labor's case is to depend on the agents of capitalism, the CLASS enemies of labor. Obviously that is foolish. Who will depend on his enemy to champion his cause? Thus, our leaders, like Murray, who depend on Truman, are putting our case into the enemy's

What can we do? Here too the conclusion is obvious: we must strive for our own government, a workers' government. How? The very first step is to organize an INDEPENDENT Labor Party. We emphasize INDEPEN-DENT because the Political Action Committee of the CIO, which pretends to the skeleton of a labor party, is not independent. It works cheek by jowl with capitalist politicians and their parties. PAC must be forced by the pressure of labor's ranks to free itself of its capitalist party ties. And if it refuses, then a Labor Party must be organized without regard to

Many union leaders, among them Reuther, have spoken in favor of a 383 86th Street, Brooklyn, N. Y.

Labor Party. Certainly many workers, above all the auto workers, have declared themselves for a Labor Party. Nobody can tell us that GM workers who demonstrated their class solidarity against all kinds of odds on the picket line will not equally demonstrate their class solidarity in political action.

Or, let us look at it briefly from another point of view. We've spoken of one type of government intervention. There is the other and more nakedly ugly type witnessed by the police attacks against workers in

#### Steel Local 2067 Appeals for Aid

Dear Friends:

The basic steel companies have settled their strike on the basis of 18½ cents per hour. However, there are still 1300 plants of the fabricating units that are at present still having a hard fight to receive 181/2 cents per

We of the American Can Co., Local 2067, are one of these units. Now in our sixth week we have been offered only 10 cents of the 181/2 cent figure. We would appreciate any help your group could pass along to us in this our time of need.

Fraternally yours, JAMES HOUSTON,

President, Local 2067, United Steetworkers of America.

The Workers Party requests readers to aid Local 2067. The address is

Philadelphia, New Jersey, Los Angeles and elsewhere. That is the government at work in its most unadorned aspects. It speaks so clearly for itself that we shall not elaborate on this part of the argument. Every phase of our life brings us

square against the issue of class versus class, working class versus capitalist class. That is socialist talk, we will be told. Right! It is socialist talk. We of LABOR ACTION and the Workers Party are socialists and not municipal socialists who are satisfied with a slight improvement here, a slight improvement there—while the great iniquity of capitalist rule remains. We are revolutionary socialists and it is our object to replace capitalist society by a workers' society. For it is by socialism alone that we can achieve real security and freedom.

To achieve that, however, we must understand and wage our struggle on a political level as well as an economic level. That is why we call upon you to join the Workers Party as a party for socialist action. And that is why we also call upon labor to organize the political equivalent of our unions—a Labor Party.

Just as our unions fight for our immediate economic demands, so will a Labor Party, built upon our unions, advance our interests as a class in the political arena.

0

This is the lesson of the steel settlement, the GM strike, the police violence against pickets in Philadelphia, and of every battle in which labor is engaged. For that is the way toward INDEPENDENT political action and toward a WORKERS' GOV-

## Hold GM Picket Line Intact --

(Continued from page 1)

imously by the 200 delegates from GM locals meeting here for a report on the progress of the strike, for the delegates were determined to insist upon no less than the 191/2 cents an hour wage increase and renewal of the old contract.

When the UAW-CIO negotiating committee, headed by Walter Reuther. UAW-GM strike director, including R. J. Thomas, union president, and George Addes, secretarytreasurer, told the corporation Saturday morning of the results, the corporation issued a big blast charging that "union politics" was responsible for the rejection.

#### PROPOSES ARBITRATION

When the GM delegates met on Saturday to hear the latest report on the situation, Walter Reuther, who had already retreated from the magnificent position originally adopted by the GM strikers, came forward with the argument that the union leadership would have to answer to "public opinion" and prove that GM was lying again. Claiming it would demonstrate that the union leaders were not "playing politics" and that it would settle the strike on what he considered a satisfactory basis, he proposed that the three remaining isues in dispute be arbitrated.

These issues are the one-cent difference in hourly wage rates between that proposed by GM and that demanded by the union today, the dating of the retroactive wage provisions in the contract, and the formulation of clause 63 concerning seniority and

promotions. The first reaction of many delegates was against the arbitration proposal. For the most part this was not based on the arbitration issue itself plant grievance had not been settled satisfactorily in the negotiations. One delegate spoke directly against the

majority of delegates it evidently seemed that this "strategic retreat" had to be accepted as a way of settling the very prolonged strike.

It must be understood that if today there is necessity to retreat to arbitration, it is because the original GM strike program had been pushed in the background by the CIO union leadership's acceptance of Truman's "fact-finding," wage-fixing formula. When Murray and Thomas and others placed their reliance on Truman instead of on the picket line strength of the union members, they exerted a tremendous pressure, which Reuther proved himself incapable of countering, AGAINST the GM strikers. These men and women, in asking for 30 cents an hour increase, had stated labor's case well. In tying wages, profits and prices together, they had demanded that the corporation open its books and grant a wage increase WITHOUT a price increase. The replacement of real collective bargaining by arbitration would not have risen now had the union leadership hewed to the line taken by the militant GM strikers, whose heroic struggle and progressive demands paved the way for whatever wage gains labor has won in current negotia-

Whatever the merits of the arbitration proposal from the point of view of the union's struggle, the daily press has been forced to change its tune, taken from the company, that "union politics" was prolonging the strike. As it happens, and largely for the reason that many of them look more to Truman than to the workers' strength, the entire union leadership is for arbitration. The fact of the matter is that the corporation lies when it charges that the strike can't but on the fact that the question of 'be settled until after the UAW convention because of "union politics." And the lie is intended to cover up its refusal to grant what the GM

arbitration proposal. However, to the workers have incontestably proved the corporation can grant.

#### LEADERS' RESPONSIBILITY

In the necessity of the \*UAW-CIO retreating on the remaining issues of the strike is revealed the final results of the blundering, divided and uncoordinated policies pursued by the UAW-CIO, and the national leadership of the CIO in the strike wave.

Above all, the anxiety of the GM officials to get Philip Murray, president of the CIO, to handle the union negotiations shows they expected to get him to end the strike by an 181/2 cent an hour wage increase instead of sticking to the "fact-finding" board recommendation which had already whittled the union's demand down from 30 cents to 191/2 cents. Likewise the settlement of the Ford and Chrysler negotiations on the 181/2 cent basis (and steel and other settlements as well) left the GM strikers alone in sticking to their demands.

There was no report to the delegates indicating that the union negotiations would accept any company security proposals. Unless there is a sudden surprise, and this anpears most unlikely since the Reuther faction presents itself in "behind the scenes" talk as an opponent of company security proposals, the GM contract will be superior to the other contracts signed by the UAW with the major companies. Any arbitrator deciding on the GM issues will have to remember that the GM workers showed their mettle in the more than 100 days of their strike and in the GM strike program they first advanced.

In the event that the corporation refuses to accept the UAW arbitration proposal, the delegates voted to summon the entire CIO to help them intensify the strike struggle until the demands of the workers are met.

## Drive Nears 2,000 Mark

By REVA CRAINE, Press Manager

As this is being written, returns from only four branches of the Workers branch there we Party on the first LABOR ACTION SUNDAY have reached us. With only New York, Akron, Philadelphia and Chicago reporting in time to make our deadline, the activities of the Workers Party branches and LABOR ACTION Boosters during this past week have nearly doubled the total number of new subscriptions, and as we move into the sixth week of the Subscription Drive we know that the 5,000 goal is going to be surpassed!

#### CHICAGO AND AKRON REPORT

The Chicago Branch came into its own this week with a total of 210 subscriptions, the result of two Sunday mobilizations for house-to-house canvassing. An enthusiastic letter from the Sub Drive Director of that branch indicates that Chicago intends to go far beyond its quota.

"We jumped the gun of the official beginning of the five Red Sundays on March 3rd. This morning, February 24, we held a sub drive mobilization of the branch, from which we obtained 128 subs. The mobilization this morning was met with great enthusiasm on the part of the participating comrades. Individual sub-getting ranged from five to seventeen in two hours of intensive canvassing. One new member obtained fourteen subs. The Chicago branch held this mobilization just as a preliminary to the beginning of the official drive. We expect to exceed our quota of 350. Individual quotas of 20 subs per member we expect to be exceeded by every comrade.

"Fraternally,

A report from the Akron Branch on its plans for the dampaign, a request for additional subscription booklets, and 59 subscriptions from that area this week are all the evidence that we need that this branch will "definitely meet the quota of 200." As a matter of fact, we are convinced that with a little extra push, the Akron Branch will be among those which exceed their quotas.

"Concerning the subscriptions to LABOR ACTION, just now, due to the strike, subscriptions will be a little difficult to get. However, I will see what I can do. I have been getting ten copies a week and have been giving these out at the local union hall here. The fellows at union headquarters seem very well pleased with LABOR ACTION. As far as I am concerned, LABOR AC-TION is tops. It is one labor paper that pulls no punches. It is not sponsored by capitalists that print their propaganda to fool the general public as 95 per cent of all present-day papers do .- H. H. "

That hits it just right! LABOR ACTION is published in the interests of the working men and women of the country-and it is supported by working men and women. It presents the news from the point of view of labor and is out in front in every battle fighting on the side of labor. That is why it deserves and must have your support! If you have not yet joined, become a LABOR ACTION BOOSTER, as so many of our readers have. It is not too late to do so! Simply write for a subscription booklet and begin spreading LABOR ACTION among your fellow workers!

#### NEW YORK LOCAL MAKES BIG ADVANCE

This week, as a result of two mobilizations, one at the FEPC rally in Madison Square Garden and the other on LABOR ACTION SUNDAY, the New York Local of the Workers Party obtained 442 subscriptions and fulfilled 41 per cent of its quota. Special arrangements are being made to keep up this pace of sub-getting as New York moves toward exceeding its quota of 2,000 subs.

#### SECOND LABOR ACTION SUNDAY

The second in the series of LABOR ACTION SUNDAYS is on March 17, when all branches of the Workers Party are meeting at 10 a.m. at their respective headquarters for a nation-wide canvass for subscriptions. Consult the Workers Party Activities column for the address at which you can meet members of the party if you wish to join in this mobilization.

## FEPC Meet Lacks Program

By CHRIS WARREN

NEW YORK - Over 15,000 people came to Madison Square Garden on February 28 to express their demand for a permanent Fair Employment Practices Commission. They came eagerly and in a militant spirit. But as speaker after speaker rose and offered nothing but a reiteration of the fact that discrimination is "un-American," "ungodly" and "unfair," their enthusiasm waned.

For over four hours the audience sat passive and unmoved while more than fifteen speakers assured them that "the fight would go on." Not one of the speakers offered any kind of program that would guarantee a permanent FEPC to the minorities of this country.

Representatives from the CIO and AFL voiced their support of a permanent FEPC. Every worker must be made to realize that the fight against discrimination is inextricably tied up with the fight for higher wages. The employers have always sought to divide Negro and white workers. They understand that a fully united working class is an unbeatable force.

Senator Wayne Morris of Oregon labeled the fight against the recent filibuster in the Senate a farce. Fortynine senators voted for the petition to limit debate but few followed the suggestion that the senators remain dence in the President's "message of in their seats and vote against ad- support."

journment until the filibuster was broken. Senator Morris promised the cheers, whistling and stamping of audience that "the fight would go on." But if the "supporters" of the FEPC bill refuse to take the one step that would definitely defeat the filibusters, what will this new "fight" be but another "farce"?

#### WORDS ARE CHEAP!

Senator Chavez of New Mexico urged the voters in the audience to remove from Congress all those who do not come out openly for the FEPC. However, he reported that the Republicans, whose election platform supported the FEPC, failed to carry out their party's platform. Words are cheap, especially at election time!

President Truman sent a message to the rally through Secretary of Labor Schwellenbach. He is determined that "the fair employment practice principle be enacted into legislation by the Congress of the United States." When the FEPC ordered the government-operated bus lines in Washington to employ Negroes, Truman reversed the decision. When Truman had the opportunity to extend the temporary FEPC he turned it into an "investigating committee." While the filibuster was raging in the Senate chambers Truman was silent. The thousands in the audience at Madison Square Garden showed little confi-

The meeting was enlivened by approval when the March on Washington movement was mentioned. Many in the audience knew, even though the speakers on the platform seemed to forget, that the temporary FEPC was set up by President Roosevelt when the Negroes threatened to march on Washington and present their demands in a body.

Many in the audience realized that the only way to impress upon Congress and the President that they had had enough of this fakery was to gather their forces and march to the capital in a demonstration of their solidarity and strength.

The Democratic and Republican parties have been making campaign promises to the Negroes and other minorities for years. It is impossible to force them to keep their promises. The minority groups in the United States must support the formation of an independent labor political party. Only the true representatives of the working class will be able to carry on an honest and successful fight for jobs for all regardless of race, religion or color.

Members of the Workers Party distributed copies of LABOR ACTION and sold over 150 subscriptions to the paper at the end of the meeting.
