Japs Triumph As Canton Clique Ousts Chiang Kai-shek

Chang Hsueh-liang Gives Way To Pro-Japanese Chang Tso-hsiang; Japs Aim Aggressions At Soviet Union; New Fighting Breaks Out In Manchuria

has sent a sharp "warning" to Japan declaring that the United States would be "forced to protest" against any "further invasion" of Manchuria. The "protest" was delivered by Ambassador Forbes to the Japanese Foreign Office on December 18.

December 18, 1931 Two pronounced victories for Japan were the chief results of last week's developments in the Far Eastern sit-

Chiang Kai-shek "Resigns"
In the first place Chiang Kai-shek
of the Nanking clique, which has
operated as the "national government" of China under Wall Street patronage since 1927, resigned on December 15 to make way for the Canton group under the leadership of Eugene Chen, Wang Chin-wei, and others. Chiang announced his resignation in the name of "national unity and peace." The fact is, however, that two opposing forces cooperated in bringing about the actual ousting of the Chiang clique: the spontaneous but vague and politically confused 1esentment of the students and large sentment of the students and large masses of petty bourgeois nationalists against Chiang's lack of desire and ability to put up a real resistance against the imperialist invasion of Manchuria; and the intrigues of Japan which aimed at elevating the Canton group, with which it had established close connections, into power as the "national government." The complete bankruptcy of the Chiang regime, in domestic and foreign affairs, led to its collapse under pressure. It is not certain however that sure. It is not certain however that Chiang Kai-shek is entirely out; reports indicate that he will be placed at the head of the "National Defense" department or be given some other high post and his return to power, with the help of U. S. imperialism, is not altogether out of the question. In the meantime, however, Japan has scored and scored heavily against the

As far as the Chinese masses are concerned the new regime will be no less oppressive, no less merciless, no less an agent of foreign imeprialism than was the Chiang government. The thin veneer of "leftism" lent to the Canton clique by Wang Chin-wei has been worn off in its open negotiations with Japanese imperialism.

Chiang Hsueh-liang Out
On the next day, Chang Hsuehliang, war-lord of Manchuria and ally of Chiang Kai-shek in the Nanking government, resigned his positions in favor of Chang Tso-hsiang, his uncle, former Governor of Kirin Province, the head of the so-called Kirin clique, which has operated for many years in Manchuria under the direction of Japanese imperialism. The ousting of Marshal Chang Hsuch-liang, who was won some years ago to an alliance with Nan-

Japan in China last week: the replacement of Chang Hsueh-liang by the Kirin clique leader, Chang Tso-hsiang and the ousting of Chiang Kai-shek in Nanking, the American government mous" Manchuria, which is also one of Japan's chief objectives. An "au-tonomous" Manchuria, under a proapanese puppet government, would convert Manchuria into practically a lirect colony of Japan.

Japan's firm entrenchment in Man-churia represents not only a further stage in the colonial partition of China and the enslavement of the Chi nese masses but also a very serious menace to the Soviet Union. The next object of Japanese imperialist aggression is certain to be the Soviet

Battles Continue in Manchuria Meanwhile the military invasion of the objective of complete seizure continues. On December 16 two battles were fought between the Japanese invading armies and Chinese irregulars. The Chinese were repulsed and many killed:

Japan Loses Export Trade to China TOKYO-Japan has lost 60% of her trade to China since September owing to the anti-Japanese boycott and disturbed conditions.

Mass Roy Defense in India Hoover Moratorium Passes House

from The "Independent India" Of Bombay

The article below is taken from INDEPENDENT INDIA, a Nationalist Weekly, published in Bombay. It gives some idea of the tremendous mass movement that is being developed in India in defense of Manabendra Nath Roy, the Indian Communist and national-revolutionary leader. Comrade Manabendra Nath Roy is an outstanding figure in the International Communist Opposition. Roy was arrested some months ago in India on charges of "waging war against the King."

A WEEKLY NEWSPAPER DEFENDING THE INTERESTS OF THE WORKERS

> Since the arrest of Comrade Mana-pendra Nath Roy, the well-known ligure in the field of international politics and the movement for emancipation of the colonial peoples, prominent public men, national workers, trade unionists and representatives of the labor organizations all over the country, are preparing for the defence of this fighter for national freedom of the Indian people.

> Bombay Demonstrates Against Roy's Arrest

As regards agitation against the arrest of Comrade Roy, Bombay took the initiative. All-India Trade Union Congress, along with the Bombay Girni Union (Red Flag), the G.I.P. Railwaymen's Union, the B.B. & C.I. Pailway Employees Union, and other Railway Employees Union and other labor organizations and the Nawiu-Bharat Sabha demonstrated against this fresh attack of the government of India on the movement

for national freedom.

The Bombay police, having been aware of the demonstration arranged by these organizations in the city, removed Comrade Roy from the Esplanade Lock-up to the Cawnpore

Cawnpore Takes Initiative For

Defense Immediately after his being brought to the Cawnpore District Jail, the citi zens, Youth Leaguers, Congressmen and trade unionists of Cawnpore took immediate steps to set up a strong M. N. Roy Defense Committee, consisting of Pandit Jawahar Lal Nehru Pandit Haribarnath Shastri (President, Provincial T.U.C.), Brajesh of Kalakankar (Secretary, Provincial T.U.C.), as secretaries. Pandit Narayan Prasad, Arora Moulana, Hazrat Malaria Alia Karaga Chosh Dr. La Mohani, Ajit Kumar Ghosh, Dr. Jawahar Lal, Gopinath Singh and others as members. The committee has engaged the legal services of Messrs. I. B. Sen of Calcutta, Mr. Assafally of Delhi, Mr. Igbal Krishna Kapoor and other local advocates. Besides this, the Defense Committee has wired to Herr Rosenfeld, a famous German lawyer, and a member of the German Parliament to come down to India for the defense of Comrade Roy. It is reported that Herr Rosenfeld has set out for India with his staff for the defense.

Another Defense Committee Lucknow also did not remain idle and immediately Comrade Banerjee,

As Wall St. Rule Is Revealed

Resolution Carries By 317 To 100; McFadden, Ranking Republican In Banking Committee, Charges Hoover "Obeyed Bankers" And "Sold Out Country"

WASHINGTON.—The joint reso- ed States. This amendment was carution approving the Hoover mora- ried by a vote of 16 to 9. The vote orium which postpones payments on on the amendment was practically a oreign debts to this country for one strict party vote, the affirmative beyear beginning last July and which in-volves a corresponding postponement of reparations payments on the part of Germany to the Allied powers, was passed by the House of Representatives on the evening of December 18 by a vote of 317 to 100. The opposition against the endorsement was led by two Democrats, Sanders of Texas and Vinsen of Kentucky. Of the 201 Republicans present, 196 voted for the oint resolution, while 120 Democrats otes affirmatively and 95 opposed

nostly Southerners. In the discussion, Representative McFadden again launched into an attack upon President Hoover and the Administration, exposing their connections with Wall Street. McFadden it should be recalled, is the ranking Republican on the Banking Commit-

Washington, D. C. December 18, 1931. By a vote of 21 to 4 the House Committee on Ways and Means dopted a resolution ratifying the Joover moratorium. This vote was receded by another on an amendient declaring against any cancellation or reduction of Europe's war time and post-war debts to the Unit

ing all Democrats with the exception of Crowther (Rep., N. Y.). The four who voted against the report as a whole were all Democrats. Considerable opposition to the rati-

fication of the moratorium is expected in the House.

In a sensationally demagogic speech, which nevertheless uncovered the invisible threads connecting the White House and Wall Street, Representative McFadden (Rep., Penn.) launched into a bitter attack upon President Hoover and the administra-tion, charging that in putting thru he moratorium the President had "sold out his country to the interna-tional bankers." Hoover's conduct, McFadden declared, "savored of the ways of an Oriental potentate drunk with power." He declared that Mr. Hoover had been elected "thru the aid of the German international bankers" and that he "had to repay them." McFadden called attention to the repeated conferences between the President and the leading figures of his Administration and the representa-tives of the biggest banking groups of Wall Street. He repeated again and again that the policies of the Administration were not being decided or even considered by the "represen-tatives of the people" but rather by high financial circles of the country.

McFadden's speech created consid erable disturbance in the Hous... Democrats and Republican arose and condemned him in threatening words. Senator Reed (Rep., Penn.) notified Postmaster General Brown that Mc-Fadden should be completely disregarded in the apportionment of Federal patronage for Pennsylvania.

With the help of Senator Borah, head of the Senate Committee of Foreign Affairs, the Johnson resolution asking Secretary of State Stimson to furnish correspondence on the Manchurian situation was adopted by the Senate on December 17.

The Senate is still deadl the election of president pro tem.

REVOLT OF INDIAN MASSES GROWS AS REPRESSION SHARPENS

Peasants, Middle Classes And Workers In Big Upsurge; Revolutionary Terror Spreads; Round-Table Fiasco Stirs Left Movement

December 18, 1931

The deep-going rebellion of the In lian masses against British imperialist oppression, unleashed by the miserable failure of the Round-Table Conference and intensified by the vicious regime of terror instituted, by the Viceroy, Lord Willingdon, is fast reaching heights where it again constitutes a formidable menace to the

The "no-rent" and "no-tax" campaigns among the peasantry have taken a decided hold in the United Provinces and are spreading to all parts of British India and even into the native states. Demands for the total expropriation of the landlords are being heard on all sides. In the cities the labor movement, which has grown considerably stronger in the last year and more, primarily thru the efforts of the Communist groups organized by Manabendra Nath Roy, Commulal repression. A new ordinance issued nist Opposition leader, is keeping on the evening of December 14 by the pace with the rapidly developing peas-ant movement. The trade union movement is being unified after the recent disastrous splits; a number of

successful strikes have recently been conducted; and the workers are beginning to play a more prominent ole in the national struggle for liberation. A new leftward swing is also noticeable among the middle class elements in the towns, the chief supporters of the Indian National Congress. The fermentation within the radical petty bourgeoisie is especially to be seen in the emergence of a new wave of individual revolutionary terrorism. On December 14 two girl students of Bengal University assassinated the British district magistrate especially notorious for his repressive measures. The swing to the left is to be seen too in the new militant tone of the provincial and local Congress committee, many of which are passing under the influence of the Communist Opposition forces. The British authorities are falling

S.-D. PARTY AGAIN BACKS BRUENING

German Socialists Again Support Anti-Labor Government

BERLIN. - A renewed pledge to support the Bruening reactionary dictatorship, in spite of its vicious attacks on the labor movement and on the conditions and rights of the workers, was made on December 16 at a special conference of the representatives of the Social-Democratic party, of the General Federation of Trade Unions and of the Reichbanner. The meeting included addresses by Theodore Leipart, head of the trade union federation, Dr. Rudolf Breitschied, leader of the Social-democratic Reichstag fraction, and Otto Wels, chairman of the Social-democratic party.

The resolution adopted pledges the Social-democratic party and the labor organizations under its influence to support the recent emergency decrees of the Bruening regime which not ony cut wages all around and forbid he political mobilization of labor but also cancel the trade union agreements and destroy the effectiveness of unions as a defense of the workers. The pretext upon which the Social-

democratic leaders based their support on the bitterly anti-labor Bruenng government and its decrees, was that the maintenance of Bruening was necessary to prevent the triumph of Fascism. As a matter of fact, however, the Bruening government is actually opening the way for Fascism by disarming and demoralizing the

on "Freedom in the Free State" Dec. 27, 228 2nd Avenue Conway

A "NEW TURN" GONE WRONG AGAIN!

A Letter From Philadelphia

by M. KRAMER

I always thought that in the labor movement it is the actual task of the Communists to come before workers and present their views in order to win them over to the movement. This task is a part of their daily work, their daily fight for the majority of fore the debate a committee of the working class, the biggest problem, Branch No. 18 of the I. W. O. apconfronting the Communists today peared at the meeting of the evecu-However, definite the understanding tive of Branch No. 118 of the W. C. However, definite the understanding of the importance of this problem is, the Communist Party today still maintains its disastrous line-however, under certain manouvers which are supposed to prove the fact that the line is being changed. Certain "liberties" are allowed to the heads of various departments and certain concessions in the carrying out of the united front work, etc., for the purpose of substantiating the fable of a change in line.

As a step in this direction the International Workers Order recently sent out a communication to our Branch No. 118 of the Workmen's Circle challenging us to a debate on the question: "Was it correct to re-main in the Workmen's Circle?" When our branch received this challenge it was the unanimous opinion of our executive committee to accept the challenge. We were clear that it might lead to sad consequences as to the stand that our district organization would take. We elected a committee of three which was supposed to meet with a committee of three from the I. W. O. When these committees met the following was agreed ceed with the preparations for the debate which was to take place on November 29; to issue publicity to the press to send letters to the memberships of the two organizations mentioned above; and to meet again on the night of the debate. There were also some technical arrangements made which are of minor importance, such as time of presentation and rebuttal, etc. One more point was agreed upon unanimously and that was that only members of the two branches should have the right to discuss and that the debaters must be members of the respective branches. It was also pointed out that the official debaters would not be as important (so to speak) as the discussion from the flood. Branch No. 118 announced that Gussakoff had been selected to present the views of that branch. We asked the committee of Branch No. 18 of the I.W.O. if they had any objections. They stated that it did not matter who the representative was as long as he was a member of the branch. Altho certain remarks were made at that meeting that Gussakoff was a member of the Communist Party (Majority Group) no objections were made about his being the speaker for Branch 118 of the W.C. As far as the speaker for the I.W.O. branch 18, they declared they had not as yet selected one. They assured us that they certainly would have a speaker ready for the debate.

Our branch followed at once the recommendations of the committees. the leadership of the Philadelphia dis-trict of the W. C., since they realized quite well that a debate of such a character would necessarily bring to the forefront the task of the left wing within the W. C. and present the militant platform of struggle in the W. C. We succeeded in creating some interest among the members of the W. C. and among many members of the I.

This ended the work of the two com-

W. O. who had left the W. C. not because of their conviction to do so. Our branch was very much interested being aware of the line of the Party, in this work and the preparation proceeded splendidly. At the same time, we were awaiting the catastrophe. We

were not disappointed. Five days be-They came with new proposals:

1. That only members of Branch No. 118 who were members of that branch before the split should have a right to lead the discussion or participate in the debate; 2. that they do not want to undertake a debate as to the correctness of the split from the W. C., but generally they wanted to discuss if it was correct for branch No. 118 to remain in the W. C.

Immediately, Gussakoff, who took the floor, exposed all the cheap man-ouvering on the part of the I. W. O. He pointed out that it ras ridiculous for us to discuss the split in one branch knowing very well that the question of the split was not a branch policy but a national policy on the part of the leaders of the Party for-ces within the W. C. What non-sense is this that only members of our branch who were there before the split should have the right to discuss. It is nothing but a cheap manouver to reject Gussakoff as the official debater for Branch No. 118. All the members of the executive committee, without any exception, underupon: That the two organizations pro-1 stood the move and refused to withdraw Gussakoff as the spokesman.

> When the committee of the I. W. O. saw the action of our executive committee standing pat that Gussakoff should be the spokesman, they let the cat out of the bag and stated: false and all those who then worked 'We are a disciplined organization. Our leader, the Communist Party, prohibits us from debating with "Lovestoneites". Bravo! This ended one of the numerous attempts to cor- ing on in certain "loyal" ranks whethrect the so-called new line of the Party. We proceeded with the debate. Some members of the I. W. O. were there and participated in the discussion. But no official spokesman was there and once more the Party which had a chance to speak to hundreds of workers and win them to the movement, failed to show its face!

THE DEPTH OF FACTIONAL DEGENERATION

The "Young Workers League of India" and Roy

"Loyalites" In The Service Of Imperialism

Much that is impermissable has I characterized the tactics of the official Communist leadership in its factional struggle against the comrades defending the Leninist tactical line Communist Opposition. But a particularly anti-working class crime has just been committed by the "Young Workers League of India" in the form of a scurrilous attack on M. N. Roy now on trial for "high treason." Any worker who reads this outbreak of the Y. W. L. of India can readily see that it is a plain piece of desperate strikebreaking. It says:

"From 1919 till the year 1928 Mr. Roy was in charge of the Communist movement in India. and he was to instruct and advise young Communist elements in India on behalf of the Communist International. Mr. Roy, instead of giving proper advice and instruction, misled the workers representatives by wrong instructions, such as, working within the Congress, forming of provincial workers and peasants parties also a National Revolutionary party of which he had very vague notions."

Comrade Roy worked very closely with Lenin during the beginning of this period. Together with Lenin, he wrote the basic theses of the Com-munist International on the national question, adopted at the Second World Congress (1920). Thruout these years he worked in leading roles for the C. I. expressing and executing C. I. policies.

In 1926, during the Seventh Plenum, Comrade Roy was one of the most important figures in the Chinese Commission. Stalin and Molotov were among the other members of this commission which arrived unanimously at its decisions. But now, everyhing that was done by the C.I. before 1928-29, before the 10th Plenum, is course are condemned as traitors. No wonder serious debates are now goer Lenin was a Bolshevik before the war!

"His activities in China in 1927 while he was a member of the Executive Committee of the Comintern were such as to betray the revolutionary movement in China and to strengthen the hands of world imperialism and Chinese counter-revolution. Owing to these

betrayals he was removed from the Executive Committee in 1928."

No doubt mistakes were made by the C. I. in China. No doubt Comrade Roy, faithfully executing the C. I. and organized in the International line in China in 1927, shared in the until the present crisis, always conmaking of these mistakes. However, it is necessary to remind these Stalinites that Stalin himself was the most vigorous champion of the C. I. line carried out by Roy in China. At Far East. that time it was Bukharin who was the most persistent critic and opponent of this line which swung from Stalin's eulogies of Chiang Kai-shek to the Canton incident.

> "Later on he allied himself with Brandler's group which had been expelled from the German Communist Party for its anti-proletarian activities. He also maintained contact with Lovestone's group in America which had been kicked out of the American Party. Thus Roy's group, in alliance with the other two renegade groups of Germany and America, pursued a policy which helped the activities of the Socialist (Second) International which is leading the counter-revolutionary movement against the International revolutionary movement led by the Communist International."

The attack on the German Communist Opposition and on our group is typical of the balderdash handed out daily in the Freiheit, Jorge's column and the Daily Worker and isn't even worthy of any reply.

"Besides these above mentioned facts which go to prove the services to world counter-revolution, one can easily see the part he is playing in the revolutionary movement in India from his bail application. For example, he wired to Mac Donald for his bail applica-tion. For example, he wired to Mac Donald to intervene in his case, to Mr. Mac Donald, who was the head of the Labor imperialist government whose regime was responsible for the most brutal white terror which India had ever experienced."

for the C. I. line and now continue to apply for bail except his jailers, headwork for this correct Leninist tactical ed by Mr. MacDonald. Should Comrade Roy have applied to the non-existent "loyal" official "Communist existent

> organizer of the Communist Party, comes as a surprise to us. As fas as we know, he was, stuff of which he was composed he was turned sion in India and elsewhere.

out of the Communist ranks as early as 1928. Again, the advocates of the present non-Leninist line of the E.C.C.I. and its puppets show their despair. Lenin and the entire Comintern leadership sidered Comrade Roy one of the best Marxists in the C. I., the outstanding Marxist in the Orient, the organizer of the Communist forces in the

"Mr. Roy said that he stressed the right of free expression because this was the crux of the whole case. This again proves how much he clings to liberal bourgeois conceptions such as, rights of free expression, etc. revolutionary can have any illusion of such rights under the present system in India. But Mr. Roy, along with his compatriots, the Indian bourgeois leaders, who have been ally ing themselves with British imperialism to bleed the Indian masses, have a right to such a freedom for they serve in fact the existing

"It is a pity that in spite of such a long role of service to the cause of world imperialism and to British imperialism in India the prosecution should have brought a charge of sedition '(!) against Mr. Roy, a charge of which, objectively, as we have shown, he is innocent. Therefore, it is still more a pity that the learned Judge of Cawnpore should have rejected his bail application. We hope that the imperialist government will come to a better recognition of its allies and reward Mr. Roy's services to the measure of his service to counter-revolution."

Here the sectarianism and cynicism of the new line show themselves at their ugliest. They are frantic at the great stir and response among the Indian masses to the prosecution of Comrade Roy. They particularly resent the broad basis on which the Roy defense has been waged. The entire labor and peasant movements, as well as the revolutionary forces in the nationalist movement, have rallied to To whom else could Comrade Roy the defense of Comrade Roy—except, pply for bail except his jailers, head- of course, the pitifully isolated and the "loyal", "official" Communist Party of India. The cynical sneers of the self-styled Y. W. L. of India, about their "surprise" at Comrade Roy being proceduted can't hide the fact "The statement of the learned Judge of Cawnpore that Mr. Roy was prima facie the that they and the British imperialist organizer of the Communist Party, comes as a government are working simultan-surprise to us. As fas as we know, he was, and is, in fact, a disorganizer. When the Party came to know the real imperialist exploitation and oppres-

DETROIT JOBLESS DEMONSTRATION

A Letter From Detroit

Detroit, Mich. persons were arrested.

Monday, November 23, a committee from the Unemployed Councils went to the Police Commissioner's office and asked for permits to hold a Hunconnection with the Hunger March to last five days was sixteen persons. Washington, but for which no time or place had at that time been decided.

The Commissioner refused these permits for the meetings called for the 25 and 28 in the park, giving as the reason that at that time of day it would "interfere with business conditions and traffic in the district.' He gave them permits for Cass Park which is a few blocks away.

They refused to hold the meetings in Cass Park and immediately issued advertising stating that the demon-stration would be held in Grand Circus Park in spite of the police. The result was that when they walked into the park they found the police waiting for them. There was no meeting held and thirty arrests were made.

Immediately after the release of those arrested a defy against the police was issued calling on the workers to demonstrate in the Park Saturday November 28, and assert their right to the park. This was issued by in Chicago, it is expected that the John Schmies; Communist candidate unions will "accept" a 10% wage-cut "voluntarily." for mayor in the last election.

At 10:50 A. M. a large number of

workers entered the park from all directions. There were approximately 100 police waiting for them and they immediately started to clear the area A severe struggle followed. After the park was cleared the de-

monstration made an attempt to reissemble at Witherell Street and Adams Avenue, but mounted police broke them up again.

Late on Saturday, a group headed by George Kristalsky arranged bonds for Lawrence Reed and Mrs. Anna munist Party!

Schmies's trial started Tuesday. He A Communist demonstration in was charged with disturbing the Grand Circus Park, the second in a peace. He demanded a trial by jury. week, was broken up by the police The case lasted three days and on Saturday, November 28, and eight Thursday he was found guilty by the jury on which there were eight unemployed workers. He was sentenced to sixty days. The case was appealed.

Since the demonstration (which demonstrated that the ruling class still ger March demonstration in Grand has the power, that the workers are Circus Park at 1 P. M. Wednesday, not yet class-conscious and that there November 25, a demonstration of women and children on Saturday, November 28 and for meetings to be held park. RAIL WAGE-CUT TALK OPENS

A committee empowered to "negoway Labor Executives Association (the heads of the railway unions) was appointed, on December 18, by the conference of railroad executives held n New York City. At the same time the railroad companies announced that they would "serve notice on the unions of a desire to revise the existng contracts so as to effect a 15% reluction in wages." In line with the surrender decision made at the recent conference of railroad shop chairmen

NEW CLASHES IN HONOLULU

HONOLULU.— The growing ac-ive resentment of the Hawaiian popuation against the arbitrary oppressive behavior of the American armed forces was manifested again in a clash between a large crowd of Honolulu and a party of seamen. Such clashes have been growing more and more common in this city within the last ew weeks. The city is seething with natred of the American oppressors and further outbreaks are to be ex-

MENA, Ark.—One hundred classconscious young men and women who wish to pursue their studies in the militant atmosphere of a labor school and at the same time live more cheaply than at home, can be accepted by Commonwealth College, at Mena, Arkansas, beginning with the winter quarter, December 28 or the spring quarter, March 28.

No one is unemployed at Commonwealth, for teachers and students work for their room, board and laundry while carrying on academic work. The college performs its own communal tasks and raises most of its own food on its 320-acre farm-campus in the Quachita mountains.

Among those in attendance are a MANILA.— Charges of "sedition" number of jobless workers who are the cause of their unemployment and to prepare themselves to be more effective in the struggle for a better so-

Courses are offered in economics, sociology, history, psychology, labor journalism, effective writing, advanced vriting, argumentation, labor law, social philosophies, imperialism, foreign affairs, English, French and German. The faculty of twelve is headed by Lucien Koch, 24 year old carpenter and farm boy and former instructor at the experimental college of the University of Wisconsin. He is the youngest college president in the United States.

Students earn room, board and laundry in exchange for 20 hours work a week and pay \$40 tuition per quarter of three months. Ability and interest in labor, rather than formal education, are the chief requirements for admission.

Senators Davis and Watson (Republican floor leader) got sugar stock in 1928 and 1929 for advocating a boost in the tariff on sugar. A higher price for the consumer meant more 'sugar" for the Senators. "They're heavy sugar daddies" says Dumb

DEBATE IN DETROIT ON DICTATORSHIP

DETROIT, Mich.-A very interestng debate was held here Sunday Deember 6 at the Detroit Educational Forum which is conducted under the auspices of the anarchist groups here in Detroit. The subject under discussion was: Is the dictatorship of the proletariat necessary for social progress? The affirmative was taken by Comrade William Miller, of the Communist Party (Majority Group) and the negative by Bartol Provo, a memper of the anarchist groups.

About two hundred persons attended, taxing the hall to capacity. Comrade Miller made a very able presentation of the Communist position and y his very convincing reasoning denonstrated the necessity of the proetariat establishing their dictatorship over the bourgeoisie to last until such ime as the bourgeois class has been wiped out and a generation has grown up under the new conditions estabished, when, to use Frederick Engels's words, "the state would wither way.'

On the other hand his opponent, pasing his whole case on pure idealsm, tried to convince his hearers that pecause the state is a weapon used for repressive purposes the Soviet state is and will be used to again enslave the workers.

From conversations had with many of the anarchists it seems that many of them were not satisfied with their own speaker.

Another member of the C. P. (Majority Group) has been invited to speak at this same forum on Jan. 10, 1932. The subject will be: What the C. P. (Majority Group) stands for.

'Intelligence Tests' and Negro

by Will Herberg

slavery in this country, profound philosophers proved that slavery was in accordance with the "nature of serious-minded economists made it clear that slavery was the nat-ural form of the organization of labor; pious divines demonstrated that slavery was based on God's Law as revealed in the Scriptures; and learned scientists emphasized that slavery was necessarily predicated in the fact that the Negro was not really a human being but constituted, anthropologically, a sub-human species, an intermediary formation between man-kind and the lower animals.

Today it is not very difficult to see that these "theories" were simply collective rationalization that arose and were elaborated as a social justification of the institution of slavery. But chattel slavery is not the only system that requires social justification and rationalization: every system of class exploitation does. Today the Negro occupies a semi-servile caste status in American society. And today there exists an elaborate and complicated structure of philosophical, religious and scientific theories to justify this depressed status of the colored people. But so drenched is the atmosphere of contemporary "public opinion" with the insidious poison of race prejudice, that these mendacious rationalizations are able to parade as sober truth, as the last word of scientific thought.

"Intelligent Testing" to the Rescue!

by the name of Cravath wrote an elaborate treatise to prove the non-human and semi-simian character of the Negro. Today it is admitted (after 77 years!) that the Negro is indeed human but not, of course, of the full human stature of the lordly white. The biological (and psychological) inferiority of the colored races has become a cardinal dogma in the confession of faith of modern imperialism.

The latest approach towards bolstering up the myth of "white supremhas been along the pseudo-science of "intelligence testing." It is not necessary here to go into an extended discussion of this form of quackery. It is only necessary to state that in its heyday the devotees of "intelligence testing" claimed that, thru the ritual prescribed in their handbooks, a certain "native intelligence" could be tested and graded, something inborn and absolute, unaffected by environment and experience, something that determined the essential mental capacities of the individual. The "intelligence testers" got busily to work with their divining rod—and what did they find?

They found that the "native intellilevel of the Negroes (as measured by the "intelligence tests") is lower than the "native intelligence" level of the whites (1) so that "naturally" the Negroes occupy a lower (economic and) social status in so-ciety. These "native intelligence" levels, we must remember, are someunchangeable, so | them! that the Negro is doomed to perpetservitude to the "superior"

A considerable objection that immediately arose to this very "convenient" theory was found in the "intelligence test" figures themselves. It was discovered upon examining these data that there was a marked "superin "native intelligence" level of Northern over Southern Negroes. Nay, more, it was found (2) that there was a marked "superiority" of whites over Negroes in Nashville, Tenn. some superiority in Chicago, and no superiority whatever in New York Not only are New York Negro boys far ahead of the Nashville Negroes they are far ahead of the Nashville whites and at least equal to the New York whites.

This would seem to imply a complete refutation of the "intelligence testers" claims of inherent racial in feriority; it would seem to point to the influence of education and environment on what appear to be racial differences. But the apologists of racial chauvinism had still another ar gument. It may be, they declared, that the Negroes who left the South to go to New York were a superior group racially, that is, that there took place a "selective migration" of the more intelligent Negroes from the South to New York and elsewhere in

Several attempts have been made in the past to test this hypothesis of "selective migration." But the most significant examination of the question was recently completed by Dr. Otto Klineberg of the Department of Anthropology of Columbia University who sketches his results very briefly in December 1931 issue of Opportuni

"One method used was to examine the school records made by Negro children in two Southern cities (Nashville and Birmingham) before they migrated Northward; the marks we compared with those of the total Negro school population of the two cities. This would sho whether the school children who went away were any better in their studies than the who remained in the South ... It was found that those who went away had marks slightly below the average for all the Negro children of Nashville and Birmingham. It was not a superior group that migrated; there is no evidence, as far as school marks are concerned that it is the more intelligent ('intelligent' as measured by 'intelligence tests.'—W. H.) Negro families who migrate to the North." This indirect evidence is of consid-

When the Negro was held in open erable value but a more direct ap-avery in this country, profound proach to the question was possible: gence" that is inborn and that differs

"Tests were given to children born in the "Tests were given to children born in the South and now living in New York, but differing in the length of time during which they have lived there. Some have been in New York only one year, others two years, others three, and so on up to twelve. If Northern Negroes are better than Southern Negroes solely because of 'selection,' that is, because the best ones have come North, the length of time during which they have lived in New York ought not to make very much difference in their scores, since all the groups, those who arrived only one year ago as well as those who arrived only one year ago as wen as chose who arrived only six years ago, have responded to the same kind of 'selection.' They are all presumably 'superior' groups who have migrated Northward. If, on the other hand, the Northern Negroes are more 'intelligent' because they live in a better environment, there ought to be an improvement in the test scores more or less proportionate to the length of time the children have lived in the North. This is what the study actually showed. Over fiftee hundred children were tested, and there was on the whole a marked improvement in the test scores as the children had lived longer in New

The results of Professor Klineperg's investigations are striking in-leed. "It is true that in general white children do better on the tests than Negroes," concludes Professor Klineberg. "It is also true, how-ever, that Negroes in the North do very much better than those in the South, and tend on the whole to approach very closely the standing of the whites this result must be due to the superior Northern environment. The difference between white and Negro children in intelligence test In 1854 an American anthropologist scores tends to disappear as the environments of the two groups approach equality." (3)

> A Critique of "Intelligence Testing" As a matter of fact, the basic assumptions, the methods of reasoning and the most favorite conclusions of the pseudo-science of "intelligence-testing" are equally wrong at bottom. Everything seems to be turned upside "Mind does not develop in va-It develops in a world in which organism acts on environment and environment on organism. Indeveloping it takes something of the complexion of the environment..."(4) Intelligence, like any other mental function or quality, does not develop independently, uninfluenced by the outside world. It is molded and formed by the social forces that mold the individual's life as a whole. It is a product of the social environment and not, as the perverse theory of "intelligence testing" has it, the deter-miner of the environment. Thus, (4) Wallis, as above.

only quantitatively in different individuals, groups or people. There are various types of intelligence, corresponding to the major types of social relations and these types of intelligence are in many cases incommen surable. Only when the social environment is the same for two individuals or groups can there be any common basis of comparison. It is the social environment that is the determining factor in the development of intelligence.

From this viewpoint the "intelligence test" figures of the various categories of Negroes and whites are perfectly intelligible. "Intelligence" correlated with academic school training and the cultural atmosphere of a modern life. The Southern Negroes, held in virtual serfdom, practically deprived by law and by custom of even the rudiments of a school education, naturally make a lower rating than the whites. On the other hand, the Southern population as a whole, due to the inferior school facilities of the South and to the general cultural narrowness of a back-ward agrarian society, falls behind the population of the North. The atmosphere of the large cities of the North (especially New York) is much freer of caste distinction (altho even here the system of discrimination and jim-crowism is real enough!) and the school facilities for Negroes and whites are much more equal so that, very naturally, the "intelligence test' scores of the two races are about the

Another "argument" for caste slav ery gone wrong! What will be the next?

(1) Compare "A Study of Natio-Racial Dif-ferences," by Nathaniel D. M. Hirsch. But of course the "intelligence testers" do not confine themselves to "proving" the "superiority" of the whites over the Negroes. Mr. Hirsch also "finds" a "high correlation between intelligence on the on-hand and economic and social status on the other; cause to effect . . . 'The occupation of a person determined by his innate intelligence, his inherited temperament, and his peculiar specific abilities or talents." We have, according to the quack "scientists," a hierarchy in "intelligence": at the bottom of the ladder are the Negroes, then come the foreign-born workers, then the native workers then the capitalists. Very convenient indeed! (2) See Paterson and Lanier, "Studies in the Comparative Abilities of Whites and Negroes.'

(3) "The difference between Negroes and whites is to be credited to social heritage rather than to race," W. D. Wallis, "Culture and Race," The Scientific Monthly, October 1926.

The Paralysis Of Burocracy

COMMUNIST PRESS AND MANCHURIA

The Official And Opposition Press Compared

By their fruits shall you know | Japan and the United States . . . It is the

The Inprecorr of November 5, 1931 (Vol 11, No. 57) contains a very interesting article headed "Weaknesses and Vacillations Which Must Not Be Tolerated." It is devoted to a scathing criticism of the incredibly confused and downright anti-Communist char acter of much that has appeared in the ove In Communist press internationally on the Manchurian situation. Let us see the tenor of these criticisms.

"The article by I. Nishi," we read, "is a example of how Communists should not write Nishi's article makes out that American capit alism, by its penetration of China, compelled Japanese capitalism to 'defend' its interests. Thus, at bottom, there is no Japanese inte

"The chief fault which is to be seen in th Communist press of France, England and the United States is the purely descriptive, informatory attitude towards the events in the Fai East, the disregard of the necessity of mobiliz ing the masses against their own imperialists against their concrete actions."

FRANCE "Comrade Peri (in the Paris Humanite) expressed his indignation that the French ourgeoisie now (October 5) 'gives its blessing to Japan, whilst it cursed the Soviet Union repelled Chang Tso-lin. The fundamental thing which ought in all circumstance to have been said regarding the specifically aggressive and provocative role of French imperialism was left unsaid. The whole article was confined to those moralizings which Comrade Lenin always so ruthelessly condemned."

ENGLAND "In the Daily Worker of October 5, the English comrades draw a not very happy comparison between the repulse of the Chinese White bandits by the Soviet Union and Japanese intervention and declare that 'when nego tiations were begun Soviet Russia demanded no more than a return to conditions as they existed before the raid.' Instead of showing the fundamental difference in principle between imperialist policy of robbery and plunder of the colonial dependent peoples, on the one side, and the Soviet policy of fight to defend the revolution and for peace on the other, . . author of the article . . . makes a philistine comparison between the magnanimity of the Soviet Union and the arrogance of

Japan." THE UNITED STATES "It (the American Daily Worker) writes in its issue of September 23: 'Action of the League of Nations would draw Great Britain sharpen inter-imperialist fights for hegemony in leading the conflict for redistribution China or armed (!) war against Japan.' Wa between America and Japan—that is what forms the center point of all discussions! Not intervention, not commencement of a redistribu tion of China, not machinations and provocations against the Soviet Union, but an almost

American imperialism, above all by laving bare its robber policy of enslaving China with the help of Chiang Kai-shek and Co. They must expose it as the oppressor of China, as the overthrower of the workers and peasants novement in China, as the provoker of all anti-Soviet adventures, for which it is prepared even if Japan takes part in them."

GERMANY "Even in the German Communist press we find at times a certain underestimation the events in Manchuria."

"The Communist press organs of Europe and America have not undertaken a systematic exposure of the fact that Manchuria, thru Japanese intervention, has again become the starting point for White Guard work in undermin ing the Soviet Union, the point of departure for beginning intervention against the Soviet

What, then, according to the Inprecorr writer, does a really Communist estimation of the Manchurian crisis involve? (1) The Japanese invasion of Manchuria is a phase of the imperialist drive for the partition of China. (2) The relations between Japan and the United States, their clashes and their agreements, must be viewed from this angle. (3) The drive to dismember and enslave China on the part of all imperialist powers is carried thru with the help of Chiang Kai shek and the Kuomintang government. (4) The Japanese invasion of Manchuria is a preliminary phase to an attack upon the Soviet Union from the Far East, in which Japanese imperialism has the support of all of the imperialist powers. (5) The Soviet Union, and the Soviet Union alone is following a peace policy. (6) Unit-States imperialism is especially vicious both in the colonial enslave ment of China and in the incitemen of a war against the U.S.S.R. (7) The specific role of American imperial ism should be especially exposed by American Communists.

It is because the official Communist press completely missed these fundamental points that the Inprecorr writer criticizes it so mercilessly. But why doesn't this critic have anything to say about the Communist Opposi tion press?

Curiously enough, we find that the Opposition Communist press has done precisely what the official Communist press so signally failed in. We cannot examine in any detail the International Communist Opposition press here. We merely call attention already cut and dried 'armed war' between to the fact that the German OppoLovestone Speaks in Philadelphia

Philadelphia, Pa. Jay Lovestone, editor of the Revo lutionary Age, spoke on "The Out look for the 1932 Elections" at the Labor Institute here on Sunday, December 13. About 200 workers were

Lovestone analyzed the situation of the two capitalist parties, their programs and their probable candidates. He dwelt on the role of the Republican 'insurgents", showing that they would have no direct influence thru their own initiative but that they might be utilized by the "regular" republicans as a liberal dressing for vote-getting. Lovestone declared that there would be no 'third party' in the 1932 elections and that the Socialist party had a good chance of increasing ts vote, coming chiefly from disgruntled petty bourgeois elements and from workers who are sick and tired of "jumping from the elephant

on to the donkey and back again." Lovestone contended that should there be the slightest indication of even the smallest improvement in the economic situation, the Republians would go back by another land-

Especially significant were the remarks made by Lovestone as regards the Communist Party which, he said, in spite of the wrong approach it has towards all its branches of activity is bound to pull a relatively large vote. In this connection Loveston's proposed that the C. P. should nominate a white worker as its presidential candidate and a Negro worker, preferably a woman, as its vice-presidential candidate as an excellent means of symbolizing what the C. P. stands for: for the interests of all the exploited and oppressed.

sition, in its press and in its circulars, has emphasized exactly those essential phases of the situation which the German Party press almost entirely neglected. The same may be said of the Opposition papers thruout the world.

And what about the Revolutionary Age? From the first to the last the Revolutionary Age maintained a conistent and clear Leninist position on he Manchurian situation, a line completely exempt from all the criticisms evied by the Inprecorr writer against the official press. As to (1): "In Manchuria Japan is now doing what American, British and French imperialism have been doing in China for decades. In the colonies and semi colonies 'democracy' has always beer synonymous with the bayonet rule, gunboat diplomacy, punitive expeditions to 'civilize' the exploited and degraded masses" (Editorial in issue of November 21). As to (2): "The of November 21). As to (2): "The triangular struggle between these three giants (Japan, U. S. A., Great Britain) for the partition of China is the dominating note in Far Eastern politics" (November 21). "The partition of China, with Manchuria going to Japan and China proper to the United States is the dominating mo-United States, is the dominating motive of Japanese-American relations" (November 21). As to (3): "It cannot be stressed too much that in this imperialist oppression, native Chinese capitalists, bandit generals and feudal forces have played a traitorous role, standing vigorously on the side of the foreign hangmen" (Editorial, November 21). As to (4): "The Soviet Union becomes the next object of Japanese aggression in the Far East

The Japanese invasion of Manchuria is the basis for an offensive against the U.S.S.R." (November 28) As to (5): "In the whole crisis there is but one country that stands for This is the Soviet Union" (Editorial, October 24). "Only the extreme concern of the Soviet Union "Only the for world peace . . . has so far prevented the war assuming world-wide proportions" (Editorial, November 21). As to (6): "Wall Street is des-perately at work trying to transform the Sino-Tapanese conflict into a Soviet-Japanese conflict" (Editorial November 21). As to (7): "We in the United States must be guided by two objectives: First, to defeat the manouvers of the Hoover administration against the Soviet Union and so prevent a world war. This goes hand in hand with the defense of the Chinese masses . . . Secondly, should the Washington government succeed in its manipulations, then we work overime for the victory of the Soviet Union, for the disastrous defeat of the Wall Street government . . ."

(Editorial, November 21). How is it, we ask, that the official Communist press failed so shamefully in carrying thru its most elementary tasks while the Opposition Communist press succeeded so well. Is not the answer to be found in the fact that the present sectarian course and burocratic regime of the Communist International so paralyzes the capacity for ideological initiative, so petrifies the political thought of its victims that only the most empty "moralizings" and the most dangerous confusion are possible even on fundamental questions? It is the blight of sectarianism and burocracy! Only the Communist Opposition, maintaining' the course of Leninism and its own ideological initiative, is in a position to meet the many complicated

Kings are still useful. King George of England is selling four of his horses and seven of his son-in-law's. He's trying to balance the budget and put the pound back on the gold standard. By such heroic stable economy the crisis should be well on its way to solution. Next they should sell the king along with the other animals (No offense intended to the noble

problems of the day.

Class-Collaboration - - "United Front"

Who Is in Way of Dress Strike?

by Chas. S. Zimmerman

ant events in the dress trade. The agreements with the manufacturers are expiring at the end of this month. And around this question of renewal of the agreements, i. e., the new standards under which the dressmakers are to work and how to get them, most of the questions revolve. In fact, all the tendencies existing among the workers find expression in this discussion. All kinds of plans are promulgated, all kinds of fights take place and all kinds of manouvers are engaged in. . It is therefore necessary to analyze all angles of the present situation so that the dressmakers, instead of being bewildered, apathetic and hopeless as to the prospects of improving their conditions, may again become active and ready to take up the struggle to change the present miserable conditions under which they are compelled to work.

The Conditions of the Workers Within the last few years, the conditions of the workers in the dress rade have grown from bad to worse When the union was strong and able to exert an influence in the trade hours of work were regulated, thus lengthening the season somewhat and employing more workers; the minimum wage was guaranteed and, in many instances, the workers earned above the minimum. Garments were settled according to the amount of work, regardless of the price they sold for outside. Today all this is wiped out. The

garments have been standardized but the cut-throat competition at the expense of the workers continues. We have now the \$3.75, \$6.75 and \$10.75 garments. Regardless of the amount of work there may be, the boss tells you it is a \$3.75 or \$6.75 garment and this is the price you have to take for it! The result is that the earnings the workers have been cut more than 50%. Hours of work have been lengthened. The 40-hour week exists only in theory. Thus, we find a con-dition in which thousands of dressnakers are compelled to work until or 10 o'clock in the evening and also Saturdays and Sundays and then, at the end of the week, have only about 325 in their pay envelopes, while other housands walk the streets unable to ind a job.

Space does not permit me to go in o further detail as to the treatment eccorded to the workers, the degradaion and misery under which they are ompelled to work.

Two Dangerous Tendencies How do the different tendencies in

What is the situation among the

urriers? Here we have in our ranks

the most advanced elements, men and

women who at one time were the

eaders of the furriers union, the most

active and the most lively section of

the militant furriers. I recall how in

1929-1930 Comrade Gold, then busy

n trying to "convince" our comrades

o a position in which he did not be-

ieve himself, admitted that our com-

ades constituted the best and most

ignificant element of the furriers. It

that our furrier comrades, carrying

thru the line of our group, would ad-

vance even faster than the comrades

in the other branches of the needle

What we see is quite the contrary!

We, the furriers, understood how to

agitate among others that our line is

correct; but we stood still and mark

ed time when we had to carry out our

line into action. Each and every one

of us agreed that we must build a left

wing in the Int'l Fur Workers

Union: nevertheless, we left this im-

portant task to our good sympathiz-

ers alone. When they noticed that,

on the many occasions of the sharp

struggles in the Kaufman and Stetsky

groups, our comrades not only failed

to assist with policy and guidance but

did not even become members of the

union, those who were members of

the I.F.W.U. failed to attend meet-

ings and to bring forward to the

workers our constructive policy as

against the destructive policy of the

right wing. When our sympathizers

noticed that we failed to come and

present our point of view they also

ed by the N. T. W. I. U. we made a

good showing in presenting a resolu-

tion demanding that the Industrial

Union take part in further conferences

called by Stetsky and Joint Council

in accordance with their previous de-

clarations. In spite of their original refusal, N.T.W.I.U. leaders were

forced to participate under pressure

of the furriers once our group had

begun to take part in the conferences.

In these conferences we succeeded in

bringing forward our line and prov-

ing that it was the only course along

which the unity and fighting power of

ence our comrades committed a ser-

ious error for which we are certainly

the workers could be restored.

become indifferent.

rades or at least as fast.

the dressmakers?

There are two distinct tendencies which are dangerous and, if allowed to be carried thru, are sure to make the situation even worse. One is the policy of the right wing,

e., the International and Joint Board officials, and the other is the policy of the dual unionists, the so-called "left wing."

.-The Policies of the Right Wing

How do the Int'l and Joint Board eadership approach this question? It s now a few weeks before the expiration of the agreements. Negotiaions with the manufacturers have aleady begun. The contractors have had the audacity to put forward de-mands that would reduce the condiions of the dressmakers to slavery. Yet what have the leaders of the Joint Board done to mobilize the workers for the impending struggle? Nothing at all! Not one shop chairnen's meeting has been called! Not one mass meeting of dressmakers has een held! No plans for mobilization have been proposed! On the other hand, bitter attacks are being launched against Local 22 where some work for mobilizing the dressmakers has been started. The leaders of the Joint Board make the predominant issue the International \$3.75 tax which the membership of the Local has rejected. The substance of their argument is: If you want an endorsement for the strike, come across with the \$3.75; vou don't come across, well. . . .

Is it really the \$3.75 tax issue that prevents the right wing leaders from carrying on preparations for the strike or are there other reasons? That this cannot be the reason can be seen from the fact that the three other locals of the Dress Joint Board have approved the tax; why then punish hem? Why is nothing at all being done there to prepare for the strike? How can this criminal negligence be

I believe that the \$3.75 tax issue is being used merely as an excuse to cover up the real motives. The real reason is that the leadership of the Joint Board and the International are opposed to calling a strike and still dhere to the policy of class-collaboration. They have no confidence in the masses of workers. They have no confidence that the workers can want and are ready to struggle for better conditions. Therefore, they hope that, thru mere negotiations with the employers ,thru a few statements in the press about sweat-shop conditions,

to be severely criticized. We had a

resolution with the proposal for a ref-

erendum vote of the organized fur

the "impartiality" of the chairman,

another of our comrades, who was

supposed to bring this resolution for-

ward, never did get the opportunity

to do so. But this is surely no ex-

cuse. Not only did we not fight to

get our resolution forward but we

er. Our failure at the last session of

the conference certainly helped to

undo some of the good work we had

We continued making mistakes af-

ter this also, mistakes which bring some doubt if we really understand

the trade union line of our group. Af-

ter the unity conferences we failed

to clarify our position. There was a

good possibility to fight Kaufman on

nis alliance with the United Hebrew

Trades and his revival of the slugging

we did nothing. Here the "Rank and File Committee" (the T.U.U.L. or-

ganization, a cover for the Industrial

Jnion) committed a greater crime

han ever before committed in the

entire period of struggle. They went

ahead and "elected" a "Joint Council'

outside of the regular union organi-

zation but claiming to be the regu-

lar union body! An act like this is an

act of the crassest dualism. It leads

to more division and to more destruc-

tion. Without speaking of the fak-

ery in using the label of the I. F

W.U. and the A. F. of L. (which, ir

ganizations), the mere fact of the

union is a crime and a severe blow to

the policy of unity and the building

of one union. It should have been our

duty to clarify these matters. We,

these acts are leading to, we should

have come out immediately and ex-

posed and condemned this act. It

was our job to prove to the workers

that the road to unity lies not in split-

ting but in the unification of all fur

workers regardless of their political

views and affiliations. And in this

we failed. Today, in the few days

who realize and see clearly

election" and the creation of a third

pecome indifferent.

committee against the workers.

accomplished previously.

The Struggle Among The Furriers

OUR MISTAKES AND OUR TASKS

by B. Baraz

We are now on the eve of importnt events in the dress trade. The
greements with the manufacturers
greements with the manufacturers
greements with the manufacturers nothing to mobilize the dressmakers. A 1930 City Hall agreement-a 1930 strike per agreement with the bosses -will not improve the conditions of the workers, nor will a so-called lockout with a subsequent renewal of the

old agreement. The 1930 agreement gave up many of the conditions of the workers and reduced the union to a state of impotence. The union has no longer any say about the conditions under which the workers are to work. The officials of the Joint Board have no longer any responsibility to defend the workers in the shops. It is the "impartial chairman" who has the full say. The Joint Board officials have one answer to all complaints of the work-

ers. "What can we do? It is the impartial chairman who is

to decide.
Such is the fruit of the 1930 City Hall agreement. And Hochman, the manager of the Joint general Board, dared boast, at the last general membership meeting of Local 22, about the "victory" in the 1930 strike!

What is needed now is not a 1930 strike or a 1930 agreement but a real strike for conditions in the shops. The dressmakers must become active in the union, must defeat the class-collaboration policy and must help to carry on mobilization and preparations for a real strike.

2. The "Left Group"

What do our friends, the so-called 'lefts" propose? They, who are supposed to be the most militant section of the workers, who are supposed to stand in the front ranks of all workers struggles, have today isolated themselves from the masses of workers. They stand aside in their own organization which, they themselves admit; cannot function any more as a union, because the masses of workers are not in there; they devise all sorts of schemes how to get the workers. They haven't the courage to face the fact that the majority of the organized workers are in the I.L.G.W. U. and, instead of maintaining their sect, to give up the Industrial Union and join the union where the masses of workers are found-there to propose a constructive, militant policy and, on the basis of this policy, win the workers. Conditions have changed since 1928

when the Industrial Union was organ-The majority of the workers are today in the International. Most of the workers who were in the Inlustrial Union at the time of its formation are today in the Internationd. But the leaders of the Industrial Union haven't learned yet or haven't the courage to change their policy. They, therefore, resort to all kinds of manouvers, running from one extreme to the other, and, instead of being a constructive militant force, as a left wing should be—to stir enthusiasm and inspire the workers to struggle, they sow demoralization, pessimism and confusion. They commit one mistake after another; a few months laer they criticize themselves "admit the mistakes and then proceed to commit new mistakes—as Iews do hefore Yom Kippur: come to the synaworkers on affiliation to the A. F. of L. But our speaker never made the gogue, beat their breasts for their proposal. It is true that, owing to

sins and then go on sinning.
Thus a year ago, the Industrial Union proposed to the dressmakers to go out on strike for the 7-hour day. 5-day week and week-work. They denounced and condemned anyone who pointed out to them the stupidity of attempting to call out the workers on would therefore naturally be expected were even hesitant about it altogeth- strike for such demands. But on the eve of the strike, when they finally realized that the workers did not take their demands seriously, they changed them-but it was already too late. The damage was done and the result was a fiasco. A year ago, we pointed out to them the need for unity in the ranks of the dressmakers, the need for one union in the trade, if we wanted to improve the conditions of the dressmakers. We were denounced and condemned for such heresy. Today, they see that the workers want one union in the trade.

Here again, instead of taking up the question and facing it boldly, they resort to petty schemes that will not lead to unity but, on the contrary, to more confusion and disunity.

The "Unity" Proposal of the "Left" Group

Let us see what is their proposal for bringing about unity. They take their forces, i. e., the members and sympathizers of the Industrial Union, and divide them into three groups: You, Grossman and Rosenberg, lead a so-called "Left Group" inside the I.L.G.W.U. and carry on the work from the inside. You, Lupin and Weissberg, lead the army of the Inlustrial Union. And you, Migdal and Stoil, lead the "United Front Comnittee." At first, Grossman and Rosenberg introduce a resolution in Local 22 to elect a committee of 25 to neet with a committee of 25 of the Industrial Union. These two committees are to call a shop conference where a committee should be elected to take over the leadership of the strike, disregarding the union organ. zation altogether. Then the Industrial Union sends a committee of 25 to the Local 22 meeting with a similar proposal. Then the "United before the expiration of the agree- Front Committee" calls a conference to which anyone can come and claim (Continued on page 4)

ment, unity is especially necessary; (Continued on Page 4)

AND END AND A BEGINNING!

BANKERS and experts committees are again on the job trying to save the last plan on which all had been staked to save Germany, Europe, and "western civilization". Even in the United States Congress, which has aptly been evaluated as a cross between a troop of monkeys and a herd of sheep, explosion follows upon explosion over the Young Plan and against the Hoover moratorium.

But what happens in the American Congress, the "excess" talk, the disregard of Congressional courtesy to the President, these are all tempests in a teacup in so far as actual "settlement" of the world crisis of capitalism reflected by the reparations and debts, conflicts and dilemmas goes. A review of the course of "solutions", of the maze of "remedies" will suffice to show the paralysis and helplessness of capitalism in its tottering days.

The astronomical figures set for Germany's payment by the Reparations Commission, not even Clemenceau would seriously propose today if he were still alive. Then came the Dawes Plan to stave off the first disastrous fruits of the Versailles system, symbolized by the collapse of the German currency and the occupation of the Ruhr. Soon this edifice, based entirely on American architecture—an attempt to make Germany creditworthy, no fixation of German's final liability, specific graduated payments over a number of years, huge foreign loans, flexible provisions based on an index of "prosperity"—was soon rocked to its foundations.

Indeed the very "success" of the Dawes Plan spelled its doom. As the annuities rose to their maximum, as the importation of capital was slowed down, and as the German capitalists began to have a little more confidence in themselves, in their vitality as exploiters and as competitors in the world market, "Hell-and-Maria's" pills were thrown overboard and the Young Plan opened a third chapter. The financiers trumpeted the launching of this plan for its finality and for its taking "the whole question out of politics." Figures were now scaled down for Germany. Young was, in recognition of his services, even termed "presidential timber". Scarcely had the ink dried on the Young Plan when the logic of the development of world capitalism, especially due to its post-war structural changes, reached a point of acute crisis. Prices toppled with a violent bang. A blizzard of devastating proportions gripped the economic life of the entire capitalist system. The most careful figures and the best laid plans and safety loopholes of Wall Street's experts were then instantly as out-of-date as the almanacs of the years gone by.

Stimson wasn't far from wrong when he estimated Hoover's moratorium as an attempt to save the world—for, to save German capitalism from collapse would mean to go a long way towards saving the entire capitalist world from an irreparable debacle. The Hoover Plan has failed to end or even improve what the French imperialists call a "crise de confiance". The confidence of large and decisive sections of international capitalism and even German capitalism itself has been rudely undermined by the successes as well as by the failures of the Reparations Commission, the Dawes Plan, the Young Plan, the Hoover Plan, the "standstill" agreements, and

the Wiggin proposals.

The breakdown of the Hague agreement in less than two years was recently dramatized in the opening of a fourth chapter when the German government applied to the Bank for International Settlements to convene the Advisory Committee to consider again Germany's capacities for further reparations payments. Congressman McFadden has certainly the low-down, in general, on Hoover's role as an agent and tool of Wall Street's biggest bankers. Yet, he is talking thru his hat when he says Germany's economic conditions are not as black as painted. In reality the economic situation is much worse than admitted by any German or other "experts". Were it not for the sectarian, splitting tactics and the divided ranks of the German Communist Party enabling Fascism to make such phenomenal gains and the Bruening regime to continue so long, the life of capitalism in Germany would probably be measured by weeks today.

This negative and temporary factor of Communist insufficiency cannot, however, serve as a permanent prop to the crippled capitalist system in Germany or elsewhere. For one thing, sooner or later, the Communist Party of Germany will correct its tactics and unify its ranks. Besides, every time another country tries to bolster up its own system, for example Great Britain with its skyward tariffs, it only hurts Germany's position still more. Hitler's days of power are only hastened by such remedies. The circle of capitalist contradictions is not only vicious but unlimited in diameter and circumference. When the crash does come, it will not affect Germany alone—but all Europe. Nor will it really stop here. The underpinnings of the whole system of international capitalist finance and industry are decayed. Every chapter of the reparations crisis is only an end of a "solution" of yesterday and a beginning of despair of today and disaster tomorrow. The reparations crisis is only a decisive phase of the inexorable logic of the development of those economic and social forces, the maturity of which were precipitated by the World War.

We are now witnessing the completion of the destruction of the capitalist system—a destruction so auspiciously hastened by the last war. But the end of capitalism will only be the beginnings of a new society already growing up in the U.S.S.R.

The Paterson Strike and the Communists

The United Front in Paterson

by Ben Gitlow

Unity is a much abused word.

In the name of working class unity all kinds of destructive splitting tactics are used in the labor movement. The strike of the Paterson silk workers served as an object lesson on unity. The Communist Party (Majority Group) carried out in Paterson the policy of the united front. It succeeded in uniting trade union organizations and various groups in the labor movement behind a common struggle against the bosses for better conditions and for trade union organization. The united front movement in Paterson, initiated by the Communist Party (Majority Group), was successful because it helped to mobilize the workers for the strike, to develop militant strike activity, to win better conditions and to strengthen the union of the silk workers thru amalgamation, increased membership and an increased spirit of unionism. It also made possible the birth of a progressive and left wing group in the

The united front in Paterson as I stated in my previous articles included trade unions—the A. F. of L. unions and the Associated Silk Workers of America, an independent union. It included groups like the Conference for Progressive Labor Action (Muste group) and the C. P. (Majority Group), a Communist group, and enlisted the support of Socialists, I. W. W. syndicalists, anarchists, etc.

This united front was most bitterly attacked by the official leadership of the Communist Party and its trade union department-the Trade Union Unity

On November 11, the resolution of the National Executive Committee of the Trade Union Unity League estimated the united front in these enlightening words:

"The A. F. of L. and its various wings from Muste to Gitlow have played an increasing role as strike-breakers, and against the demands of the unemployed. Every struggle of the masses can only be carried on correctly, if it is directed against the reformists as part of the combination of the bosses, the government and labor burocrats."

This statement is instructive. It explains what happened in Paterson. It exposes the basic trade union conceptions of the official leadership of the Communist Party and the Trade Union Unity League. It is a flat rejection of any united front action with the A. F. of L. organizations and groups within the A. F. of L. According to the T. U. U. L. resolution, the A. F. of L. and its various wings have played an increasing role as strike-breakers, every struggle of the masses can be carried on correctly if it is carried on against them as part of the combination of the bosses and the government and the labor burocrats.

This is a declaration of war which divides the working class and its organizations into two definite, opposing camps: (1) The A. F. of L. and all groups, tendencies, etc., in the A. F. of L. as an enemy force to be attacked, smashed and destroyed; (2) the revolutionary unions of the T. U. U. L. under Communist leadership, as the only working class organizations to be recognized, supported and built up.

This is a strange conception of unity. It is pure and simple conceit against which Lenin fought so bitterly. It is Simple-Simon trade union policy. It is bound to develop some queer conceptions and the most destructive, splitting, demoralizing tactics in the labor movement. If capitalist conditions are such, taking the T. U. U. L. resolution seriously, that no opposition in the A. F. of L. unions can develop against the capitalists, then capitalism is so entrenched, has such a definite hold on the masses, that no genuine opposition to capitalism in workers organizations, like the A. F. of L. unions, is possible. This is giving too much credit to the ability of the capitalists; it exposes the extreme pessimism and hopelessness of those presenting this position, of building up a trade union front against capitalism.

The counterpart to the united front initiated in Paterson by the C. P. (Majority Group) was the so-called "rank and file united front from below." A caricature of unity! It is Christian Science applied to trade union

The National Textile Workers Union calls togeth-

er its own members and others to come to a mass meeting, presents a hand-picked "general strike committee" for the approval of the mass meeting and then declares the "united front" established by calling the committee the "United Front General Strike

Then the fight for "unity", in line with the basic policy laid down, as noted above, in the resolution of the T. U. U. L. begins. The strike for conditions, for unionism, against the bosses, is altogether secondary.

From the first bulletin issued by the United Front General Strike Committee and the National Textile Workers Union, I quote:

"The workers have openly rejected the leadership of the A. F. of L.-Associated crowd. They have not been able yet to break from their company union leadership and come to us."

This was issued when 7,000 workers were following the united front strike leadership of the amalgamated A. F. of L. unions, when hundreds were being arrested on the picket lines, when in Clifton, the Henry Doherty mill was using injunctions and policemen's clubs against the heads of the strikers.

The same bulletin advocates "unity" further on in the following terse words:

"That is why the bosses tell striking workers if they want a union, they should go to the Associated. The bosses know the Associated-now part of the A. F. of L.—won't fight them. There must be something funny about a union the bosses want."

From another strike bulletin issued from the same sources; we read first in reference to a parade of over 3,000 strikers following:

"They have to cover up the defeat of their victory parade of 422, most of them bosses." Then, further on, during the bitterest weeks of the strike, it states:

"Is more proof needed than the U.T.W. and Associated are lined up with the bosses Is more proof needed that they fear the power of the National Textile Workers Union? Is there more proof that the place of every worker is in the ranks of the National Textile Workers Union." Calling for an open split of the ranks during the greatest activity of the strike!

When an actual attempt was made by rank and file workers to end the splitting, dividing tactics of the so-called "United Front General Strike Committee" and the National Textile Workers Union, this same "The agents of the U.T.W.-Associated tried

bulletin attacked the move as follows: to get some of our workers to meet with a socalled rank and file of the fake union. It was a move to get some sort of fake unity across. We sent none of our leaders. But their committee had nearly the whole of the Joint Board on it. We sent this unofficial committee, knowing very well what the outcome would be but we did it in order to convince every one of our workers that we do not reject a chance of getting unity!"

I could quote leaflets, resolutions, speeches, etc. all along the same line. It is no wonder that the Party leadership and the T.U.U.L. admit failure in Paterson. They blame the strike leaders, the subordinates, for failure to execute the policy correctly and energeti-

But if this leadership were honest in analysing the situation, then they would have to admit that their basic trade union line makes the establishment of a united front and unity impossible. They would have to further admit that it makes inevitable the pursuit of splitting, disruptive strike-breaking tactics, precisely as was done in Paterson. And lastly, they would have to admit that the united front is not a scheming manouver but an effective weapon for mobilizing and leading workers in struggles when it is based upon a trade union unity policy as advocated by the Communist Party (Majority Group).

To force such a recognition requires a new attitude on the part of the membership of the Communist Party. They must stop being submissive followers and become active revolutionary fighters who fight for their convictions inside the ranks of the Communist Party and the T. U. U. L.

OCCUPATIONAL DISEASE, by Rosamand W. Goldberg. Columbia University Press, New York, 1931.

After one has read thru the cataogue of occupational diseases listed n this book, one is compelled to conlude that not a single important in lustry is free from hazards to the ife and health of the workers. All ndustries, from the lightest (jewelry) to the heaviest (coal and iron), offer serious health hazards. Neither the aristocrats of labor nor the most unskilled and unorganized are spared he ravages of occupatoinal disease. One of the most poisonous substances, lead, affects the most 'aristocratic section" of the working class-the painters and printers. And, ironicaly enough, the so-called "prosperous" periods mean the greatest harm to he workers from poisons and other

njurious elements. The substances responsible for illhealth in industry are many and varied. In broad classes, they may be listed as dust, metals, chemicals, fumes, excessive heat and light and compressed air. Who ever imagined that "banana oil" as a vapor caused headaches, nausea, digestive disturbances and palpitation of the heart? How many physicians know that jaundice is the principal symptom of tetrachlorethane poisoning?

Tuberculosis still remains the chief occupational disease. And the main cause of tuberculosis is the effect of the various dusts-metallic, mineral vegetable-upon the respiratory system of the workers. Dusts are pres ent to a greater or lesser extent in most industries. Chemicals and metals are even more dangerous to the health of those that come in contact with it, but are not as widely used. Compressed-air illness is well known and has received much publicity, Excessive heat and light cause a considerable number of physical and nervous disabilities. Cancer and skin disease have resulted in many cases from industrial factors. In this brief review, to give an ade-

quate description of the causes, inidence, and consequences of occupaional diseases is impossible. even the author in 110 pages dealing with hazards in industries does not do justice to the subject. Her book deals more with the laws relating to industrial hazards and workmen's compensation than to occupational diseases as such. In the part dealing with these laws, the author reveals, unwittingly perhaps that practically nothing has been done in the United States to safeguard the health of the worker and that just as little has been lone to aid the worker and his famly after his health has been seriously mpaired. I shall cite one provision of the law, as quoted by the author, of the law, as quoted by the dark, so the saw year of it to the church, these laws are. On Page 124, she "In Russia," warns Saunders, these laws are. On Page 124, she says: "New York requires, as a precautionary measure, the factories in which lead, arsenic or other poisonous substances, or injurious or noxious fumes, dust or gases are present as an incident or result of the occu-pation shall furnish hot water, soap and industrial towels for the use of the workers." The author makes this statement seriously and without comment. Of what use are all the water in the world in preventing the fumes, dust or the gases from beir by the workers involved in these industries? Serious investigators of lead poisoning have pointed out that the greatest danger comes from the inhalation of fumes. And even if there were more stringent laws it is absoutely imperative that there should be trade unions to protect the workers to see that the laws are cr.sc. ea.,

Dr. Goldberg thruout her book reveals extreme naviete and mere book knowledge. A book on occupational diseases cannot be written without first-hand information on the subject. As a bibliography the book is excellent. It is useful for those who are interested only in the general features of occupational diseases. As a summary of existing literature on this question it is satisfactory but if we are interested in the insidious, chronic and painful nature of occupational diseases, in order to find means of combating them, we must turn to the conscientious, able and thoro investigators of whom Dr. Alice Hamilton is a good example.

er is just when they are the busiest that they might find spulling it apart." Now is the time dal about themselves.

A Tip for the Jobless! If our readers are wondering how spend New Years Eve, here's how: "New Year's Eve Cruise: One Day—Dec. 31st: Your problem solved. Sail out to sea 6 P. M. Dec. 31. See the old year out on

the bounding deep. Return Jan. 1,. 1932. Only \$52.50." And here's another:
"New Year Week End Cruise: Cruise: Two Days-Jan. 2. To recuperate from 'That New Year's Eve Party.' Sail out to sea at noon Saturday, Jan. 2, 1932. Enjoy the rest and recreation of a voyageand return Monday morning, Jan. 4 in time to start the New Year

right--\$50." The two trips seem to cancel each other, but what the hell! They only set you back \$102. And you've got to spend your time somehow . . . if you're unemployed!

The Christmas \$pirit

Reader, the great pre-Christmas sale is on. Shirts that were selling wo weeks ago for \$1.00 are now \$2.95. Suits that were \$27.50 are \$55. Fifty cents ties are being practically given away for \$1.35. All to celebrate Jesus Christ's first birthday. No wonder the Jewish merchants call him "Our \$avior."

* * *

What's In a Name?

Dr. Nicholas Miraculous Butler proposes to abolish war by abolishing he Departments of War, Navy and Aviation and "substituting a single department or Ministry of National Defense." The right words will still perform wonders. The age of magic is not dead!

Clothes Make the Man

The Pope denied an audience to the Mahatma because Gandhi refused to put on enough clothes to shield his Holiness's sensitive modesty. The old adage distinguishes three sexes, men, women and priests. The ones who wear the least clothing are the women. The ones who wear the most are the priests. No wonder His Holiness feared the shock of Gandhi's diapered nudity. If the proverbially rated truth should ever try to crash the Vatican she'd have to seduce all the Swiss Guards before she could get into the first anti-chamber. all, it's not hard to understand. Pope without his robes would lose his infallibility. He'd be no Pope at

Church Cashes In On Communism "Money talks!" says the Rev. W.

E. Saunders of the Marcy Avenue Baptist Church. To fight Communism, strengthen Christianity. To save your money from confiscation

"Christianity meets its first serious challenge in many centuries. Communism is an out-and-out criticism of the method of conduct of human life in our present civilization. We have all agreed that our practice of the theories of Christianity is far from perfect. Communism attacks their philosophical basis, proclaims the Christian program a failure, the ideal of the kingdom of God as inadequate, the leadership of Jesus superfluous challenge can be met only as the followers of Jesus Christ stand behind His program in a way in which their money speaks of their

This involves not only Christian use of wealth but also the support of the institution which at home and abroad represents the Man of Galilee. Communists in Russia have given a significant sign of their sincerity in their mistaken ideal of giving up their individual wealth. Christians who believe in the individualism of Jesus must also give the sign of their sincerity by support of the church and its program. Their money must speak for them."

A swell collection speech! shekels must have rolled in!

Doings of the Elite Town Topics is a naughty little tittle-tattle sheet that tells smutty true stories about America's society folk. The "right people" read it faithfully in hope that there may be some breath-taking innuendos about some of their "dear" friends or for fear that they might find some nasty scan-

Many of America's best people own stock in Town Topics, Inc. It's a good insurance scheme. After all, the paper doesn't mind withholding juicy scandal if you come across and become a part owner.

The stock salesmen approach their

Our Mistakes and Our Tasks

(Continued from page 3) is going on. Let us not forget for a moment that our difference with the Party in regard to trade union work is primarly that we are for building the existing trade unions under the A. F. of L. and for transforming them into real fighting organizations, while the T.U.U.L. is for breaking up the unions and for transporting the workers by every means into the T. U. U. L. unions. As a matter of fact Comrade Gold in the recent open forum in the Bronx, expressed more openly what the others are trying to hide. In answer to a worker's

We must learn from past mistakes. it is the only way thru which the fur workers will ever again regain their the Communist International attacked mentioned forces come together and ing strikes instead of one? It is true workers will ever again regain their the Communist International attacked mentioned forces come together and ing strikes instead of one? It is true adopt a proposal similar to the one that the Industrial Union will come permitted the carrying thru of this serting the mass conservative unions, as harmful to the revolutionary moveninsane policy of the T.U.U.L. without saying anything. We continue ment. Our immediate task is to have cal 22 and a committee of 25 from it to conduct the strike. But such even now to be indifferent to what all comrades become members of the Industrial Union, there is now a unity will mean only that the Industrial A. F. of L. union, the I.F.W.U., to third committee of 25 from the "Unit-take an active part in the organiza- ed Front Committee!" They elect a ganization of its supporters and symtake an active part in the organization, building the left wing, strengthening the organization, unifying and mobilizing the fur workers for a struggle against the class enemy, the bosses. We must show in the future that not only do we understand and talk about the correct line but we are actually able to carry it out. Only by deeds and active participation in

question as to the policy of having left wing groups in the right wing unions, Gold declared openly: "We parents being compelled to take their are having left wing groups in the right wing unions for the purpose of breaking these unions and bringing these unions are distributing posters and circulars to form this united front. And if the purpose of the depression, the thoughtful Girl Scouts are distributing posters and circulars to form this united front. And if the purpose of the depression, the charge of the purpose of the purpose of the depression, the charge of the purpose of the purpose

come our shortcomings.

WHO IS IN WAY OF DRESS STRIKE? Union think that they can fool many workers with such a proposal? Any worker who reasons and thinks can

(Continued from Page 3) ment. Our immediate task is to have cal 22 and a committee of 25 from it to conduct the strike. But such committee to go to the Local 22 membership meeting. And, with all due pomp and ceremony, they come to Local 22 and present their proposal, not forgetting to attack in advance the Local 22 administration and of course the "Lovestoneites" declaring that their proposals would be rejected and that they alone would remain the champions of unity! union work will we be able to over-

This situation would really be comical if it were not so tragic. Do they really believe that with such schemes they can build up a united front of the dressmakers? Don't they know that you cannot disregard the union organization? They call on the work-

will not the situation then be that we pathizers and then united with it Does it not mean a united front with oneself? This ridiculous position in which they find themselves comes from their own false concept of trade union unity which rejects the union of organization because of disagreements with union officials. Unity of organizations does not mean the approval of the class-collaboration policies of the officialdom; on the contrary it provides real possibilities for

ly the leaders of the Industrial Union are not fooled by it. They know that their proposal will not bring about unity and they are, already attacking the administration of Local 22 and the "Lovestoneites" that it is they who don't want unity! This is what they are doing now A few months later they will "self-criticize" themselves and admit their mistakes in the unity manouver. We call upon chain to see their mistakes now, while there is still time to conrect them and before much damage is done. With their schemes and man ouvers they are only bringing in conusion and denies have him ng the interests of the workers and

see that it means further disunity more splits and more confusion. Sure-

Face the situation squarely and when real militant action is necessary, frary it provides real possibilities for lighting them.

What is really the meaning of this manouver? It is merely a petry scheme to organize a so-called "impartial committee", exploit the unity sentiment that is prevalent among the workers and thereby get some of the save (Page 33); "Evactly at the workers and thereby get some of the save (Page 33); "Evactly at the workers and provides real possibilities for a successful the dressmakers for a real struggle. In this way we will be able to combat the class-collaboration policies of the reactionaries and their City Hall agreements, beat the bosses attempts is the prize-winning slogan selected from among 100,000 for the Demotrate and thereby get some of the save (Page 33); "Evactly at the workers and put up a real struggle to constructive program, help mobilize an appeal like that?

In this way we will be able to combat the class-collaboration policies of the reactionaries and their City Hall agreements, beat the bosses attempts is to further reduce the standards of the from among 100,000 for the Demotration in 1932. Souries and put up a real struggle to an appeal like that?

liscrediting the left wing movement.

the militants are needed the most. Now is the time when the energies and activities of all class-conscious workers should be devoted to mobilization for the strike. Now is the time when the followers and leaders of the Industrial Union must again become a constructive force instead of what prospects armed with such notations they are today, a disruptive force. If as these: they really mean the interests of the dressmakers, they must give up their present disruptive policies that lead to new splits. The crying need and there will be a split there are the several than the superscript of the several the several than the superscript of the superscript of the several than the superscript of the supe union in the trade! And I say very plainly: Give up the Industrial Union that cannot any more function as a union and come in to the union where the majority of the workers are toboldly. Now, on the eve of the strike day! Come in and, on the basis of a constructive program, help mobilize
