

## "BLOOD DEBTS MUST BE PAID IN BLOOD" Communists Smash Fascist Attack by Zionist "Jewish Defense League"

COMRADES ALAN ANDERSON AND MIKE HOFFMAN, WHO LED THE SMASHING OF THE FASCIST ATTACKS OF THE ZIONIST JEWISH DEFENSE LEAGUE IN NEW YORK OCT. 7 AND EXPOSED THE POLICE-COLLABORATION OF THE SOCIAL-FASCIST PARTY. THE HEAD OF THE NEW YORK POLICE "SUBVERSIVE SQUAD" THREATENED TO SHOOT ALAN BUT ALAN ANSWERED THIS COMARADLY THREAT WITH A PUNCH IN HIS FACE.

New York, Oct. 7 -- Members and supporters of the American Revolutionary Youth and American Student Movement (Anti-Imperialist) completely smashed the attempts of the fascist "Jewish Defense League" to disrupt a demonstration against the Israeli Zionist "Minister of Occupied Territories" near the Columbia campus today.

These fascists are the same gang of Zionists who attacked the Black Panther Party and the offices of the Palestine Liberation Organization and knifed a patriotic Palestinian there this year. Thus they have built up a heavy blood debt which is beginning to be paid in blood.

This so-called "Minister of Occupied Territories" is in charge of the land that the Israeli Zionists have stolen from the Palestinian Arabs since the 1967 war. He came to New York to do

propaganda in support of the aggressive designs of U.S. imperialism and Zionism against the Arab people.

A social-fascist party (socialist in words, fascist in deeds), notorious for denouncing Al-Fatah and all genuine national liberation movements, called a demonstration against this Zionist in order to pump up its shrinking political fortunes. Our comrades attended to denounce the social-fascist party for riding the coat tails of genuine revolutionaries and in order to hold a militant rally and demonstration against the Zionist and in support of the national liberation struggle of the Palestinian people.

Upon arriving, six of our comrades found the fascist "Jewish Defense League", armed with bolts, clubs, and pieces of metal, already occupying the sundial on the Columbia campus where the social-fascists had planned a rally to begin their demonstration. The social-fascists were having polite

discussion with the JDL, trying to convince them not to be fascists, while the JDL was making various anti-communist remarks and preparing to use their fascist weaponry and karate technique against the progressive people.

As soon as our comrades arrived they began denouncing the JDL as a band of fascist terrorists who had attacked the Black Panthers and knifed a member of the Palestine Liberation Organization in New York this year. They also denounced the social-fascists for holding discussion with the Zionists instead of throwing them out.

Immediately the JDL viciously attacked our comrades, who were not intimidated but fought back with the true proletarian spirit: BE RESOLUTE, FEAR NO SACRIFICE, AND SURMOUNT EVERY DIFFICULTY TO WIN VICTORY!" Several of the broad masses joined our comrades and in a very short time the JDL'ers were routed, several of them badly bloodied up. JDL thus suffered its first

thorough-going defeat at the hands of the revolutionary youth armed with Mao Tse Tung Thought.

Once the JDL had left, the social-fascist party wanted to continue with its rally. They met with stiff opposition from our comrades, who demanded that the revolutionary people pursue the JDL, the most vicious local representative of Zionism and teach them a further lesson. Giving feeble excuses, the social-fascists refused and our comrades and supporters denounced them and marched off in pursuit of the Zionists.

Our comrades found the JDL at the site of the Zionist meeting, cowering behind the fascist New York police, who had provided them with sticks. There our comrades and supporters began a demonstration, shouting "BLOOD DEBTS WILL BE PAID IN BLOOD!" and "LONG LIVE PEOPLE'S WAR!" The social-fascists arrived shortly and, after picketing a few minutes, made a deal with the fascist police to give up (Cont. on pg. 3, col. 4)

### 18th Anniversary of Battle of Stalingrad

## THE TURNING POINT IN WWII

BY CHAIRMAN MAO TSETUNG

October 12, 1942

(Today, October 9, is the 18th anniversary of the Battle of Stalingrad, the turning point of World War II. On that day the heroic Soviet people, led by Comrade Stalin, turned the tide of battle and the German Nazis from that point onward were on the road to defeat and the worldwide front of anti-fascist people was on the road to victory. After the death of Comrade Stalin in 1953, the revisionist clique headed by Khrushchov usurped power and restored capitalism in the Soviet Union, turning the world's first proletarian dictatorship into a dark fascist dictatorship of the bourgeoisie. Today, when U.S. imperialism and its chief accomplice, Soviet social-imperialism, have stepped into Hitler's shoes as the world's most rabid aggressors, the world's people are once again uniting to put an end to their common enemy. But the U.S. reactionaries have never been able to run roughshod over the world's people, and today they, too, are "ON THE VERGE OF EXTINCTION" conducting "A LAST DESPERATE STRUGGLE" while the revolutionary forces "ARE APPROACHING VICTORY." -- Ed.)

The Battle of Stalingrad has been compared by the British and American press to the Battle of Verdun, and the "Red Verdun" is now famous all over the world. This comparison is not altogether appropriate. The Battle of Stalingrad is different in nature from the Battle of Verdun in World War I. But they have this in common--now, as then, many people are misled by the German offensive into thinking that Germany can still win the war. In 1916 the German forces launched several attacks on the French fortress of Verdun, two years before World War I ended in the winter of 1918. The commander-in-chief at Verdun was the German Crown Prince and the forces thrown into the battle were the cream of the German army. The battle was of decisive significance. After the ferocious German assaults failed, the entire German-Austrian-Turkish-Bulgarian bloc had no future, and from then on its difficulties mounted, it was deserted by its followers, it disintegrated, and finally collapsed. But at the time, the Anglo-American-French bloc did not grasp this situation, believing that the German army was still very powerful, and they were unaware of their own approaching victory. Historically, all reactionary forces on the verge of extinction invariably conduct a last desperate struggle against the revolutionary forces, and some revolutionaries are apt to be deluded for a time by this phenomenon of outward strength but inner weakness, failing to grasp the essential fact that the enemy is nearing extinction while they themselves are approaching victory. The rise of the forces of fascism and the war of aggression they have been conducting for some years are precisely the expression of such a last desperate struggle; and in this present war the attack on Stalingrad is the expression of the last desperate struggle of fascism itself. At this turning point in history, too, many people in the world anti-fascist front have been deluded by the ferocious appearance of fascism and have failed to discern its essence. For forty-eight days there raged an unprecedentedly bitter battle, unparalleled in the history of mankind--from August 23, when the entire German force crossed the bend of the River-Don and began the all-out attack on Stalingrad, through September 15, when some German units broke into the industrial district in the northwestern section of the city, and right up to October 9, when the Soviet Information Bureau announced that the Red Army had breached the German line of encirclement in that district. Ultimately this battle was won by the Soviet forces. During those forty-eight days, the news of each setback or triumph from that city gripped the hearts of countless millions of people, now bringing them anxiety, now stirring them to elation. This battle is not only the turning point of the Soviet-German war, or even of the present anti-fascist world war, it is the turning point in the history of all mankind. Throughout these forty-eight days, the people of the world watched Stalingrad with even greater concern than they watched Moscow last October.

Until his victory on the western front, Hitler seems to have been cautious. When he attacked Poland, when he attacked Norway, when he attacked Holland, Belgium, and France, and when he attacked the Balkans, he concentrated all his strength on one objective at a time, not daring to disperse his attention. After his victory on the western front, he became dizzy with success and attempted to defeat the Soviet Union in three months. He launched an offensive against this huge and powerful socialist country along the whole front stretching from Murmansk in the north to the Crimea in the south, and in so doing dispersed his forces. The failure of his Moscow campaign last October marked the end of the first stage of the Soviet-German war, and Hitler's first strategic plan failed. The Red Army halted the German offensive last year and launched a counter-offensive on all fronts in the winter, which constituted the second stage of the Soviet-German war, with Hitler turning to retreat and the defensive. In this period, after dismissing Brauchitsch, his commander-in-chief, and taking over the command himself, he decided to abandon the plan for an all-out offensive, combed Europe for all available forces and prepared a final offensive which, though limited to the southern front,

### Black Workers Denounce UAW Hacks for Betraying Working Class

Detroit, Oct. 7--Writing in the October issue of "The Inner City Voice", official organ of the League of Revolutionary Black Workers, a spokesman for the Dodge Revolutionary Union Movement vigorously denounced the sell-out bureaucrats of the United Auto Workers for betraying the interests of the working class in the contract negotiations now taking place in the GM strike.

Representing the progressive spirit of the Black workers at the Hantrac Assembly Plant, as well as the progressive sentiment among the awakening auto workers as a whole, the spokesman revealed that all the trumpeting in the imperialist press about the negotiators solving local issues before proceeding to national issues is nothing but fanfare. "The issues on the (local) negotiating table," the spokesman said, "are beyond belief. Upon reading them one would feel that it was a management policy list....What about areas of discrimination, working conditions, elimination of time study, cut of check off, misuse of Section 77C, speed-up, mixed jobs...foremen working hourly jobs...systematic racism of job placement (Black body shop; white

inspection)?" "Our local talk teams are making a mockery of bargaining procedures," he said.

The spokesman singled out for attack the union's policy of racial discrimination. "In the present 1970 contract talks not one word has been uttered in behalf of Black workers....Why nothing for Black workers? There is not one UAW staff member Black or white who speaks out on behalf of Black workers even though the most open struggle inside basic industry is the struggle being waged by Black workers. Which is witnessed by the rise of revolutionary union movements, Black caucuses, wildcat strikes and individual acts of violence (James Johnson, who killed two foremen) etc. Black workers have attempted every method possible to gain some support from the UAW International Staff and have each time been rebuffed. Therefore we must go it alone."

The spokesman exposed how the UAW hacks have increasingly sold the workers' interests down the drain over the past twenty years. Singing away the workers' lifeblood in national negotiations and abandoning the control over

### European People Denounce Nixon's "Visit"

In his recent visit to Europe, Nixon attempted to pull together alliances with European fascists and revisionists, such as Franco of Spain and Tito of Yugoslavia, and to make threats against the Arab people, in a wild attempt to preserve the tottering rule of U.S. imperialism. But Nixon's plotting and his "visit" were thoroughly exposed and fought by the masses of European people, especially in Italy and Ireland.

Nixon's trip to Italy so aroused the class hatred of the Italian people that massive demonstrations were held for

# THE AWAKENING OF AMERICAN NATIONAL MINORITIES

Peking, Sept. 2 (Hsinhua News Agency)—The "People's Daily" today published an article entitled "The Awakening of the American National Minorities," written by Lu Chun-hung, a Red Guard in the Panchin reclamation area, Liaoning province:

From the very depths of the prison for the American people of various nationalities—the United States, came indignant, earth-shaking roars. Along with the daily upsurge of the Afro-American struggle against violent repression, the American Indians, Mexican-Americans and Puerto Ricans have risen in revolt one after another. This is an important symbol of the further awakening of the American people.

Like the Afro-Americans, the minority nationalities in the United States such as mentioned above are suffering from the cruelest exploitation and oppression. In Los Angeles, the rate of t.b. and of infant mortality among the Mexican-Americans are the highest in the country. Their unemployment rate doubles that of the whites. The reactionary U.S. ruling circles kill Mexican-American youth like game. The American Indians are in a particularly miserable state. As a result of the homicidal racial policy pursued by the reactionary U.S. authorities, the population of the American Indians has decreased from 1,000,000 to 600,000.

The great leader Chairman Mao teaches us: "RACIAL DISCRIMINATION IN THE UNITED STATES IS A PRODUCT OF THE COLONIALIST AND IMPERIALIST SYSTEM. THE CONTRADICTION BETWEEN THE BLACK MASSES IN THE UNITED STATES AND U.S. RULING CIRCLES IS A CLASS CONTRADICTION." So is the contradiction between the American minority nationalities and the U.S. ruling circles. With the daily decline of U.S. imperialism, the reactionary U.S. ruling circles are intensifying op-

pression and exploitation of the minority nationalities, thus sharpening this contradiction more and more. However, wherever there is oppression, there is resistance. The upsurge of the struggle of American minority nationalities is a proof of this law of history.

At present, the struggle of the minority nationalities in the United States has reached a completely new stage. Mexican-American farm workers in the grape plantations in California have persevered in their strike for five years. On November 20, 1969, more than 150 American Indians representing the 20 Indian tribes in the United States occupied the Alcatraz Island in San Francisco bay which used to belong to them, and have remained there ever since. All this shows an enormous rise in the political consciousness of the American national minorities. Still more noteworthy is the fact that instead of confining their struggle to striving for freedom and human rights, they have directed its spearhead at the reactionary internal and external policies of U.S. imperialism. When Nixon flagrantly ordered the dispatch of troops to invade Cambodia to expand the war of aggression against Indo-China on April 30, they, like the broad masses of other American people, courageously plunged into a revolutionary mass movement against the Nixon administration's policy of aggression and war, voicing vigorous support for the just struggle of the three Indo-Chinese peoples. They have realized that the foreign policy pursued by U.S. imperialism is a continuation of its domestic policy and that the reactionary system of capital-imperialism is the root-cause of their hardship and poverty. Only by overthrowing the evil rule of U.S. monopoly capital can they achieve genuine emancipation.

In their struggle the Afro-

Americans, Mexican-Americans, American Indians and Puerto Ricans have come to see the importance of unity among them, and have therefore tried constantly to strengthen it. Militant organizations of the Mexican-Americans have expressed their determination to fight shoulder to shoulder with their fraternal Afro-Americans, and their enthusiastic support for a progressive Afro-American organization—the Black Panther Party—which stands for armed resistance to violent suppression. An American Indian in charge of organizational work has pointed out that in order to win victory in the struggle, "We need not only the unity of American Indians but also that among various nationalities." Furthermore, the struggle of the Afro-Americans, Mexican-Americans, American Indians and Puerto Ricans enjoys the support of the broad white laboring masses in the country. Such a militant unity is of extreme importance to the shaping of a new upsurge in the revolutionary mass movement in the United States.

Recently the U.S. reactionary authorities have stepped up their repression of the minority nationalities. The Nixon administration has used brute force at will to slaughter the Afro-Americans and Mexican-Americans. However, no reactionary in history ever saved himself from doom with a butcher's knife. The atrocities of the Nixon administration can only serve to further awaken the minority nationalities in the United States, who will unite more closely and wage fiercer struggles. So long as the minority nationalities in the United States unite closely with the broad masses of other American people and the revolutionary people of the world in the common struggle, they will certainly win victory, bury U.S. imperialism once and for all and achieve their own emancipation.

INDIANS IN WASHINGTON STATE DEFY FISHING AUTHORITIES

## THOUSANDS OF PUERTO RICAN YOUTH SUCCESSFULLY DEFY IMPERIALIST DRAFT

New York, Oct. 4 — According to bourgeois press reports, thousands of Puerto Rican youths have defied the U.S. imperialist draft in protest of the genocidal policy of using youth from this oppressed colony as cannon fodder for the U.S. aggressive war against Viet Nam. Heads of Puerto Rican draft resistance groups and progressive organizations demanding independence from U.S. rule point out that when a Puerto Rican youth now files his intention to resist, he is usually given an immediate deferment. One youth wrote on his draft notice, "Go to hell and stop bothering me!" He received a 4-F classification from the intimidated draft board in New York.

This policy is a frantic attempt by the U.S. imperialists to paper over the sharpening contradiction between the growing national liberation struggle of the Puerto Rican people and the criminal colonial rule of

the U.S. imperialists. Since 1965 the Puerto Rican people have mounted more and more powerful struggles for independence and national salvation and have often directed the cutting edge of their struggle against the draft for the U.S. wars of aggression in Indo-China. Recognizing this as a shameful attempt to set one colonial people against another, while the imperialists watch the fight, thousands of Puerto Rican youth have defied the U.S. selective service.

One such demonstration was held on Sept. 23, the 102nd anniversary of El Grito de Lares (The Outcry of Lares), the day on which Puerto Rican patriots gloriously rose in armed struggle against the Spanish colonists and laid down their lives for their people. On this occasion, 14,000 draft cards and induction notices were burned by a militant crowd of 20,000 of the revolutionary masses.

As the just struggle of the Puerto Rican people for national salvation develops, a People's War of great intensity will surely engulf the U.S. imperialists and wipe them off this lovely island once and for all. The national liberation struggle of the Puerto Rican people is a strong blow directed against the U.S. monopoly capitalists, for whom the colony is a rich source of cheap labor and cannon fodder. The American working class and people will strongly support every blow against our common enemy. The American Communist Workers Movement (Marxist-Leninist) strongly supports the right of the Puerto Rican people to self-determination and applauds their militant spirit of resistance. Victory surely belongs to the Puerto Rican people! Long live the militant unity between the Puerto Rican people and the American working class and people! DEATH TO U.S. IMPERIALISM!

Seattle, Oct. 1— American Indians have once again shown their defiance of the fascist rules and regulations imposed on them by the monopoly ruling circles in an attempt to deny them their livelihood.

Showing open contempt for regulations making it illegal to fish outside of reservations, 20 Muckleshoot Indians took 40 King Salmon from the Green River yesterday, using gaff hooks and spears, which have been banned by state regulations. The Indians fished right under the noses of the fishery patrolmen, who could do nothing when faced with this show of determination. The Indians openly carried the fish up the banks to share with the tribe and some 50 supporters that had gathered. The Muckleshoot Indians

have a birth right to this land and use of these waters, which was "guaranteed" in a treaty with the white colonial government in 1854. The state of Washington, reflecting the imperialists' blatant disregard for the rights of the Indians, enjoined them against fishing in the streams of their motherland. The Muckleshoot Indians have vowed to continue their fight for fishing rights on four rivers.

This first demonstration of the Muckleshoot Indians since March 1966 reflects the new awakening of the American Indians who are struggling valiantly and who, along with the masses of the American people, will certainly win liberation and send the U.S. monopoly capitalists to their graves.

## Black Workers (Continued from page 1)

working conditions that the auto workers had won through such militant struggles as the Flint Sit-Down Strike of 1937, these pro-capitalist union bosses have called several sham strikes during this period of time. Going directly counter to the workers' desire to fight, these hacks sold out all higher levels of struggle along the line, and especially, for example, on cost-of-living increases, leaving the workers without protection against vicious inflation. Now the hacks are making their main national fight over thirty-years-and-out retirement plan, which affects mainly the older white workers and does nothing to answer the need of the large majority of younger and Black workers who want to fight for a better living and an end to racist and oppressive working conditions. The article further denounced the privileged position occupied by union committeemen who now enjoy locked committee rooms with in- and out-plant phones, fans,

the right to leave and enter the plant at will and to have their stewards punch them out so they can go home early and draw overtime. The denunciation and exposure of the crimes of the capitalist union bosses is bound to lead to higher levels of struggle among the working class. The leading role being played by the Black workers is bound to further awaken the entire working class and to unite more and more workers against racial discrimination and white chauvinism in the course of the struggle against the armed state of the monopoly capitalists. Today the rebellion against the fascist rules and regulations imposed by the monopoly capitalists in the auto plants is kindling individual acts of violence and mass movements against racial discrimination and for a better living. Tomorrow it is bound to give rise to armed seizure of plants and armed struggle against the imperialist state.

Hail the opening of the genuinely progressive bookstore!

## IRANIAN STUDENTS IN U.S. RISE IN ANTI-IMPERIALIST STRUGGLE

New York  
Firmly grasping the truth that supporting the national liberation struggle in their homeland necessarily means combatting fascist rule here in the U.S., progressive Iranian students resident in the U.S. have recently held a series of militant demonstrations and rallies. Time and again they have resisted the attacks of the fascist U.S. police against their right to support the rising struggles of Iranian workers and peasants against the fascist monarchy of the Shah of Iran.

Most recently, on Sept. 15, the Iranian Student Association held a militant rally at a New York courthouse to protest the unjustifiable arrest and "trial" of six Iranian students. Fifty people demonstrated their support for the six revolutionary students who were attacked and arrested by the fascist New York police during a demonstration on Sept. 8 in front of the Iranian consulate. At that time the demonstrators were supporting the struggle of the Iranian people against the U.S. imperialist-backed Shah of Iran and his terrorist regime of national betrayal. While the demonstrators were chanting anti-imperialist and anti-Zionist slogans, members of the fascist Jewish "Defense League and policemen arrived carrying Zionist signs and an Israeli flag and attempted to provoke an incident. The Iranian students determinedly continued their chanting, clarifying that the Iranian Student Association condemns Zionism as a fascist ideology and movement but is not against the Jews as a people. Since their underhanded scheme had failed, the police then openly attacked the Iranians who fought back valiantly. Three police and three Iranians were injured and six students were arrested.

Addressing the rally in support of the six arrested students, an ISA spokesman pointed out that all anti-fascist and anti-imperialist struggles around the world are united against the same enemy, U.S. imperialism and its lackeys. He showed that the imperialists who rely on weapons and police cannot win victory in the long run because they are divorced from the people, and as the great leader Chairman Mao has

stated: "THE PEOPLE, AND THE PEOPLE ALONE, ARE THE MOTIVE FORCE IN THE MAKING OF WORLD HISTORY." A spokesman for the American Student Movement (Anti-Imperialist) hailed the just struggle of the Iranians against fascist repression here, in Iran, and around the world and pointed out how the anti-imperialist struggle of the Iranian people and the revolutionary struggle of the American working class and people are of great aid to each other: "We ... have set out to combat national chauvinism and mobilize American students to actively support the national liberation movements abroad. We recognize the best method is to develop revolutionary war in the U.S. to eliminate imperialist aggression and exploitation. U.S. imperialism is the enemy all over the world. National liberation movement and proletarian revolution are interconnected, one necessarily supporting the other." This is the international solidarity of the working and oppressed people of the whole world.

Since the beginning of this year a great wave of struggle for national liberation and democratic rights has taken place in Iran—workers' strikes, peasant uprising, rebellions by students and many anti-Zionist demonstrations. Workers, students and petty-bourgeois storekeepers united in a strike against the tripling of busfares in Tehran. They closed down the Tehran Bazaar and the universities and fought the Shah's troops with revolutionary violence. Thousands have been arrested and tortured by the reactionary feudal government. Students, demonstrators and progressive religious leaders have been murdered outright. Iranian students abroad have responded with resolute support for their people. On June 26, 41 Iranian students seized the Iranian consulate in San Francisco to demand an end to political repression. They were met with brutal suppression by the U.S. authorities, arrested and imprisoned on trumped-up charges. Hundreds of Iranian students then demonstrated in support at consulates around the world, including New York, Chicago and Munich, where they occupied the consulate for seven hours.

## PUERTO RICAN PEOPLE RISE IN SUPPORT OF BROOKLYN PRISON REBELLION

Brooklyn, Oct. 3 -- When large numbers of fascist police were sent to suppress the just struggles of the prisoners at the Kings County House of Detention here today, 3000 people of the surrounding community quickly rose up to show support for the brave fighters. From windows and rooftops, the Puerto Rican working people of the neighborhood threw bottles and rocks at the fascist police, while down in the streets these fascists shot at and attacked unarmed bystanders.

## PANTHERS, YOUNG LORDS HOLD RALLY SUPPORTING QUEENS PRISON REBELLION

New York, Oct. 4 -- A rally was held at 2 p.m. today in front of the Queens House of Detention in Long Island City in support of the courageous prisoners who had risen up against fascist rules and regulations and seized and held the jail.

About 200 people enthusiastically supported the prison rebellion and applauded speakers from the Black Panther Party and the Young Lords Party, progressive organizations of Blacks and Puerto Ricans, who called on the broad masses of the people to show their support for the prisoners' just struggles. Prisoners addressed the crowd with bullhorns from the occupied jail. Numerous fascist police stood by nervously amidst militant shouts of "Power to the People!" and "Death to the Fascists!"

### Quotation from Chairman Mao:

"WHETHER IN CHINA OR IN OTHER COUNTRIES OF THE WORLD, TO SUM UP, OVER 90 PER CENT OF THE POPULATION WILL EVENTUALLY SUPPORT MARXISM-LENINISM. THE MASSES OF THE PEOPLE WILL EVENTUALLY RISE IN REVOLUTION. THE WORLD REVOLUTION IS BOUND TO TRIUMPH."

## Europe (Continued from page 1)

in a procession preceded by two red flags and a Palestinian flag. The demonstrators shouted "LONG LIVE MAO TSE-TUNG!", "PEOPLE'S WAR WILL WIN ALL OVER THE WORLD!", "AL FATEH WILL WIN!" and "NIXON, MURDERER!" Thus the demonstrations further exposed U.S. imperialism's designs to suppress revolution all over the world and in particular, its recent attempts to liquidate the Palestinian revolution.

The Italian government was so frantic at this upsurge that it mobilized the largest security force for a foreign "guest" since World War II. Nixon himself was so frightened that he limited most of his travelling to helicopter and, like the real criminal he is, hid from the masses.

In Ireland, Nixon attempted to pacify the hatred of the Irish people for U.S. imperialism by "searching" for Irish relatives. But the Irish people lost no time in exposing Nixon's real intentions to further subjugate Ireland to U.S. imperialism and held a mass demonstration of 1,000 people and a prolonged picket at the U.S. embassy. The demonstrators held a mock trial of Nixon, burned him in effigy and carried a black coffin labelled "Imperialism." They denounced Nixon as an arch murderer of the people, especially emphasizing his crimes in Indo-China and raising the slogan "VICTORY TO THE MLF." Thus, the Irish people showed their unity with the world's people in their aspiration to defeat U.S. imperialism and its running dogs. Furthermore, when the Irish lackey authorities threatened the demonstrators with violent suppression by 300 armed lackey police, the demonstrators militantly stood up and fought them. These struggles show that

The uprising in the community began at about 2 p.m. and lasted for about two hours. This community has seen fascist attacks on its people before. Many of the prisoners in the local jail are from this area. Therefore the people felt deep solidarity with the prisoners who occupied the prison earlier today.

## Blood Debts (Continued from page 1)

the sidewalk to JDL and cross to the other side of the street. Once again our comrades denounced them and they crossed leaving our comrades and supporters, about a dozen revolutionaries all told, facing the Zionists and fascist police.

At this point the head of the New York Subversive Squad (SS) attacked comrade Alan Arderson of the ASM, who had been leading the demonstration. Comrade Alan put up such a vigorous fight, supported by the other comrades, that the head SS man reached into his coat and said, "If you don't stop fighting I'll put a bullet through your head!" Without hesitation our comrade punched him in the face and the SS man panicked and ran away. Five police then jumped comrade Alan and wrestled him into a police car, where two of them struggled to handcuff him. He shouted "DEATH TO FASCISM!" and split in their faces. Other comrades and friends tried to free him and were viciously attacked by the fascist police.

Large numbers of working people from the neighborhood (W. 118 St.) had now gathered, and our comrades went among them telling them what had happened and exposing the police-collaborator role of the social-fascists. The people expressed firm support for our comrades and said they were glad to see people back up revolutionary theory with action.

Our comrades then returned to campus, where they carried on mass democratic discussions among the students. By that time the social-fascists had degenerated to a new low, using the

The fascist plan of the monopoly capitalists to intimidate the revolutionary people with wanton imprisonment, and to prepare outright genocide by reviving WWII concentration camps, will be smashed completely by the militant uprisings of the prisoners and by the vigorous support from the working masses outside.

slander that our comrades had "caused the trouble" in order to hide their own cowardice in the face of fascism. Our comrades vigorously condemned these outright lies and further exposed and denounced the anti-people role of the Zionists and social-fascists.

Comrade Alan, was held in the police station and charged with "third degree assault" and "disorderly conduct." A shaken desk sergeant said that our comrade refused to give his name and address or allow them to photograph and finger print him, and that he kept shouting quotations from Chairman Mao.

This utter exposure of the paper tiger nature of the fascist JDL is of great significance in a manner exactly the same as the fascist professional "hard-hats," the JDL has been promoted by the monopoly capitalists to intensify contradictions among the people, build a fascist mass movement and intimidate the progressive people. Our comrades smashed them in the exact same way as we exposed and smashed the vaunted "hard-hats" in Cleveland July 26—by taking up mass democracy as a weapon, "FEARING NEITHER HARSHIP NOR DEATH" and using Mao Tseung thought as our guide. This great victory fully demonstrates the truth of Chairman Mao's revolutionary thesis: "ALL REACTIONARIES ARE PAPER TIGERS." It is the most concrete support to our Arab comrades who are struggling against Israeli Zionism and U.S. imperialism in the Middle East and is a great step forward for the revolutionary movement in the U.S.

IRISH REVOLUTIONARY YOUTH AND STUDENTS BURN A U.S. IMPERIALIST FLAG IN ANTI-NIXON DEMONSTRATION DURING NIXON'S VISIT TO IRELAND.

# A PEOPLE'S PRESS IS BORN!

Yesterday marks the end of the first week of publication of PEOPLE'S AMERICA DAILY NEWS. 3000 copies have been produced each day and distributed in 14 cities. It has been received with great enthusiasm and many regular readers now eagerly await its publication each day. Following the guideline to "CAREFULLY SEEK OUT THE ADVANCED EXPERIENCE OF THE MASSES IN A LOCALITY, SUM IT UP AND POPULARIZE IT," many local, national and international struggles have been reported on and a large amount of propaganda has been done for the mass democratic, anti-fascist revolution of the American working class and people.

PEOPLE'S AMERICA DAILY NEWS was founded to respond to the call of the American Communist Workers Movement (Marxist-Leninist) to Revolutionary Youth and Students (reprinted in last issue) to "WAGE WAR OF ANNIHILATION ON THE CULTURAL FRONT" against the decadent fascist ideas propping up the tottering rule of the U.S. monopoly capitalist class. It is aimed at destroying the ideological foundation of bourgeois fascist

rule in the U.S. by disseminating Marxism-Leninism-Mao Tse Tung Thought and promoting mass democracy among the people. It will resolutely uphold what is right for the working and oppressed people and resolutely oppose what is wrong. It will promote every spark of the new culture of uncompromising resistance to U.S. imperialism. It firmly follows comrade Lin Piao's guideline: "Dialectical and historical materialism teaches us that what is important primarily is not that which at the given moment seems to be durable and yet is already beginning to die away, but that which is arising and developing, even though at the given moment it may not appear to be durable, for only that which is arising and developing is invincible." PEOPLE'S AMERICA DAILY NEWS holds that only a single spark, and nothing else, can start the prairie fire that will burn the armed state of the monopoly capitalists to the ground. This spark will be struck in the course of the dissemination of proletarian ideology -- Mao Tse Tung Thought -- among the people and this prairie fire will be a

People's Anti-Fascist War led by communists armed with Mao Tse Tung Thought. Therefore, in the course of disseminating Mao Tse Tung Thought, PEOPLE'S AMERICA DAILY NEWS has the twofold task of 1) arming the vanguard fighters of the proletariat with proletarian ideology so as to make possible the foundation of the genuine party of the proletariat, the Communist Party (Marxist-Leninist), the "FORCE AT THE CORE LEADING OUR CAUSE FORWARD", and 2) firing the masses of the American working class and people with the conviction that America belongs to them and not to the monopoly capitalists. Together with MASS LINE, official organ of the ACPM(M-L), which will continue on a less-frequent basis, PEOPLE'S AMERICA DAILY NEWS will raise the bright red flag of revolution on the cultural front.

PEOPLE'S AMERICA DAILY NEWS is founded at a time when the world revolution has entered its final stage and the complete destruction of imperialism is not far off. Chairman Mao is giving personal guidance to building a world-wide united front against

U.S. imperialism and all its running dogs. With People's China as its powerful base, this united front is spearheaded by the United Front of the Three Indo-Chinese Peoples against U.S. aggression. The heroic Palestinian people have also taken their place in the forefront of the world-wide struggle, and the national liberation movements that exist in over fifty countries plus the revolutionary mass movements in the imperialist countries constitute a powerful roadblock to the plans of the U.S. reactionaries for a third World War of fascist plunder.

The American working class and people have an extremely

important role to play in this united front. It is their task not to relegate themselves, as some reactionary "leftists" advocate, to the level of reformist cheerleaders for the national liberation movements, but to boldly develop the mass democratic anti-fascist revolution of the American working class and people so as to bury imperialism and the era of wars in the history of mankind right here in the soil of America. With high revolutionary spirits, we go forward to carry out Chairman Mao's great call: "PEOPLE OF THE WORLD, UNITE AND DEFEAT THE U.S. AGGRESSORS AND ALL THEIR RUNNING DOGS!"

## Betsy Patton Sentenced, Barbara Cahn Given Three More Charges

Cleveland, Oct. 7-- Comrade Betsy Patton denounced the fascist Cleveland courts this morning as they sentenced her to 30 days in the workhouse for resisting a fascist attack by the police and administration against her right to sell PEOPLE'S AMERICA DAILY NEWS at Cuyahoga Community College.

She was selling the paper on campus yesterday when threatened by the administrators. Together with a number of students, she demanded the right to sell. At first the administration backed down, but later had her arrested when she began selling again. She fought so hard that the fascist police had to tie her feet together and bind her to a stretcher in order to take her away.

In the county workhouse, comrade Betsy joins comrade Barbara Cahn, who has been militantly fighting against the fascist rules and regulations since she was imprisoned for smashing the fascist "hard-hats" on July 26. Barbara resolutely punched a fascist social worker and fought two matrons, all of whom had been denying the prisoners their basic democratic rights. For this she has been given 3 added charges and is being held in lieu of \$3,000 bond.

No matter what lengths they may go to, the imperialists will never be able to break the fighting spirit of comrades Betsy and Barbara, two true daughters of the working class.

## Stalingrad

(Cont. from p. 1)

would, he imagined, strike at the vitals of the Soviet Union. Because it was in the nature of a final offensive on which the fate of fascism hung, Hitler concentrated the greatest possible forces and even moved in part of his aircraft and tanks from the North African battle front. With the German attack on Kerch and Sevastopol. In May this year, the war entered its third stage. Massing an army of over 1,500,000, which was supported by the bulk of his air and tank forces, Hitler launched an offensive of unprecedented fury on Stalingrad and the Caucasus. He endeavored to capture these two objectives at great speed for the twofold purpose of cutting the Volga and seizing Baku, intending subsequently to drive against Moscow to the north and break through to the Persian Gulf in the south; at the same time he directed the Japanese fascists to mass their troops in Manchuria in preparation for an attack on Siberia after the fall of Stalingrad. Hitler vainly hoped to weaken the Soviet Union to such an extent that, with the rear of both armies secure, the main forces of the German army might be released from the Soviet theater of war for dealing with an Anglo-American attack on the western front and for seizing the resources of the Near East and effecting a junction with the Japanese, while the main forces of the Japanese army might be released from the north for moving west against China and south against Britain and the United States. That was how Hitler reckoned on winning victory for the fascist camp. But how did things turn out in this stage? Hitler came up against the Soviet tactics which sealed his fate. The Soviet Union adopted the policy of first luring the enemy in deep and then putting up a stubborn resistance. In five months of fighting the German army has failed either to penetrate to the Caucasian oil-fields or to seize Stalingrad, so that Hitler has been forced to halt his troops before high mountains and outside an impenetrable city, unable to advance and unable to retreat, suffering immense losses and getting into an impasse. October is already here and winter is approaching; soon the third stage of the war will end and the fourth stage will begin. Not one of Hitler's strategic plans of attack against the Soviet Union has succeeded. In this period, bearing in mind his failure in the summer of last year when his forces were divided, Hitler concentrated his strength on the southern front. But as he still wanted to achieve the twofold purpose of cutting the Volga in the east and seizing the Caucasus in the south at a single stroke, he again divided his forces. He did not recognize that his strength did not match his ambitions, and he is now doomed--"when the carrying pole is not secured at both ends, the loads slip off". As for the Soviet Union, the more she fights the stronger she grows. Stalin's brilliant strategic direction has completely gained the initiative and is everywhere drawing Hitler towards destruction. The fourth stage of the war, beginning this winter, will mark the approach of Hitler's doom.

Comparing Hitler's position in the first and third stages of the war, we can see that he is on the threshold of final defeat. Both at Stalingrad and in the Caucasus the Red Army has now in fact stopped the German offensive; Hitler is now nearing exhaustion, having failed in his attacks on Stalingrad and the Caucasus. The forces which he managed to assemble throughout the winter, from last December to May of this year, have already been used up. In less than a month winter will set in on the Soviet-German front, and Hitler will have to turn hastily to the defensive. The whole belt west and south of the Don is his most vulnerable area, and the Red Army will go over to the counter-offensive there. This winter, goaded on by the fear of his impending doom, Hitler will once again reorganize his forces. To meet the dangers on both the eastern and western fronts, he may perhaps be able to scrape together the remnants of his forces, equip them and form them into a few new divisions and, in addition, he will turn for help to his three fascist partners, Italy, Rumania and Hungary, and extort some more cannon-fodder from them. However, he will have to face the enormous losses of a winter campaign in the east and be ready to deal with the second front in the west, while Italy, Rumania and Hungary, becoming pessimistic as they see that it is all up with Hitler, will increasingly fall away from him. In short, after October 9 there is only one road open to Hitler, the road to extinction.

The Red Army's defence of Stalingrad in these forty-eight days has a certain similarity to the defence of Moscow last year. That is to say, Hitler's plan for this year has been foiled just as was his plan for last year. The difference, however, is that, although the Soviet people followed up their defence of Moscow with a winter counter-offensive, they had yet to face the summer offensive of the German army this year, partly because Germany and her European accomplices still had some fight left in them and partly because Britain and the United States delayed the opening of the second front. But now, following the battle for the defence of Stalingrad, the situation will be totally different from that of last year. On the one hand, the Soviet Union will launch a second winter counter-offensive on a vast scale, Britain and the United States will no longer be able to delay the opening of the second front (though the exact date cannot yet be foretold), and the people of Europe will be ready to rise up in response. On the other hand, Germany and her European accomplices no longer have the strength to mount large-scale offensives, and Hitler will have no alternative but to change his whole line of policy to the strategic defensive. Once Hitler is compelled to go over to the strategic defensive, the fate of fascism is as good as sealed. From its birth, a fascist state like Hitler's builds its political and military life on taking the offensive, and once its offensive stops its very life stops too. The Battle of Stalingrad will stop the offensive of fascism and is therefore a decisive battle. It is decisive for the whole world war.

There are three powerful foes confronting Hitler, the Soviet Union, Britain and the United States, and the people in the German-occupied territories. On the eastern front stands the Red Army, firm as a rock, whose counter-offensives will continue through the whole of the second winter and beyond; it is this force which will decide the outcome of the whole war and the destiny of mankind. On the western front, even if Britain and the United States continue their policy of looking on and stalling, the second front will eventually be opened, when the time comes to belabor the slain tiger. Then there is the internal front against Hitler, the great uprising of the people which is brewing in Germany, in France and in other parts of Europe; they will respond with a third front the moment the Soviet Union launches an all-out counter-offensive and the guns roar on the second front. Thus, an attack from three fronts will converge on Hitler--such is the great historical process that will follow the Battle of Stalingrad.

Napoleon's political life ended at Waterloo, but the decisive turning point was his defeat at Moscow. Hitler today is treading Napoleon's road; and it is the Battle of Stalingrad that has sealed his doom.

These developments will have a direct impact on the Far East. The coming year will not be propitious for Japanese fascism either. As time goes on its headaches will grow, until it descends into its grave.

All those who take a pessimistic view of the world situation should change their point of view.
