Inside this Newsletter

2 Revolution is the main trend in the world today. The Communist Parties of Peru, India, Philippines, Nepal and Turkey, guided by Marxism-Leninism-Maoism, lead People's War. They hammer at the base of imperialism..Genuine communists practice proletarian internationalism and give all out support to our comrades fighting the corrupt and vicious system which oppresses us all and starves more than half the world. Daily we see terrible pictures from Africa of starvation and destitution. For 500 years imperialism has sucked the blood from the people for profit. There are many wars in other parts of the world, including Africa, and while we might be confused as to their meaning, these conflicts are, in fact, potentially anti-imperialist. There appears to be 'great disorder' but Mao Tsetung said, 'Out of great disorder, comes order' The people of the world are fighting back

and revolution is the main trend..Because the people have a future while the imperialists have no future.

The former top U.N. official Mr Denis Halliday spoke in Melbourne of the Genocide in Iraq. He said the Melbourne Age newspaper published stories about the cricketer involved with a bookmaker on one page and whether Tony Blair should take paternity leave. While ignoring his visit and the plight of Iraq....Mr Halliday said the newspapers do not mention that Australia had 1400 troops in the Gulf War and that 250 of these are sick from the Depleted Uranium used there. But the tragedy is worse for Iraq where it is estimated that 40% of the people will contract cancer from the DU. He called on Australians to work for the lifting of the Sanctions. The Australian government trails behind the USA imperialists no doubt wanting its slice of the Middle East cake. We have to make them face up to the deadly results of their policy because a

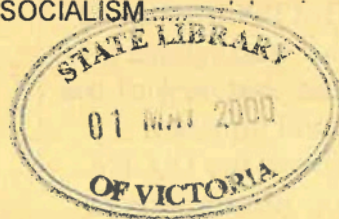

whole generation of children in Iraq will either die from lack of medical drugs or face being retarded from malnutrition sustained over a long period. The Australian people marched in the streets when the bombing took place 10 years ago but the bombing continues daily. Iraq is being destroyed so that the USA can beat its imperialist rivals Germany and Japan in the struggle to rule the world. We cannot allow this to happen. Get organized!

THE DNA TESTING

In the NSW cotton growing country town an elderly woman was bashed and raped as a result 600 men in the town have consented to be finger printed and DNA tested. Apparently, according to the mass media, there is great support for the DNA testing. Civil libertarians, however are warning of potential corruption over the testing. The police lobby run the line that only the guilty are afraid to be DNA tested. With hundreds and thousands of tests collected, what is the protection against sample stuff-ups or planting of samples. What about the many Royal Commissions into police planting of evidence?. Let us not forget the Lindy Chamberlin case. She was given a sentence of 99 years on the evidence of scientific evidence. The so called baby's blood on the dash board of the car turned out to be a noise buffer painted on by the

manufacturer. Most important of all is the PRESUMPTION OF INNOCENCE. The right to be presumed innocent until proven guilty, and the common law right to refuse to answer questions, or to provide evidence which might incriminate oneself. The mass media showed the lone lawyer speaking against the DNA testing, being attacked for his views. Our hard won rights are being eroded daily. While the WEE WAA DNA testing goes on. The Kosavar people are being pushed out. The Australian government took the refugees during the NATO bombing of Yugoslavia with great fanfare and self praise. Today they are being sent home. The first lot to be returned home were given \$3000 each to ease the pain. The People still in Australia faced 2 truck loads of security guards surrounding their camp. The people were ordered to pack their bags. One thing these people have in common is that they are poor. Immigration welcomes the new migrants who have money.....More than 1400 illegal refugees are at Woomera detention Centre, most are from Iraq and Afghanistan, and some have been held for 5 months, their relatives do not know if they are dead or alive. The refugees are threatening suicide. The propaganda from the mass media paints a picture of all these illegal people coming here to this land of milk and honey where "we" give them everything and they won't go home! Don't believe this tripe. A recent Four\$ Corners programme on ABC TV, told us that the camps where migrants are held are privately owned also the planes who carry them to South Africa. Of the 20 million stateless people in the world a

trickle arrives in Australia. When some are deported their mouths are taped and they are sedated with injections. Three Algerians were deported, One never heard of again and the other two calling out to the plane passengers that he was not a criminal but a refugee. He was jumped on by guards and given 3 injections. Imperialism has created the conditions where people cannot work or live in their own country especially if they disagree with the regime, We cannot allow this treatment to be dishd out to proletarians who have no home to go to or will face death if they return. Just compare this treatment of the penniless to the treatment given to the BONDS and various war criminals who face the justice system.....MAY DAY APPROACHES. THE GOVERNMENT REFUSES TO APOLOGIZE TO THE STOLEN GENERATION OF ABORIGINAL PEOPLE. THE GOVERNMENT REFUSES TO ACCEPT CRITICISM FROM THE UN AND OTHER OVERSEAS ORGANIZATIONS ON THE TREATMENT OF OUR INDIGENOUS PEOPLE. WHAT THE AUSTRALIAN BOURGEOIS GOVERNMENT DOES TO THE PEOPLE OF IRAQ, THE REFUGEES AND THE ABORIGINES WILL BE DONE TO THE AUSTRALIAN BORN TOMORROW. DON'T JUST FIGHT INDIVIDUAL POLITICANS FIGHT THE SYSTEM, FIGHT THE CLASS ENEMY.....MAY DAY IS FOR SOCIALISM.....

Babies at risk
 ABORIGINAL babies 18 under one year old are dying at three times the rate of the rest of the country's infants. AUST. An Australian Bureau of Statistics report also found more than half the indigenous men who died between 1995-97 were under the age of 50. Heart disease, injury, respiratory disease, cancer and diabetes were the main causes of death for Aboriginal people. Suicides were 70 per cent higher for Aboriginal men and 40 per cent higher for women than for the rest of Austr.

AUSTRALIAN WORKERS WERE NOT BEHAVING...

SO WE TRANSFERRED THE WORK TO OUR GERMAN PLANTS

THEN OUR GERMAN WORKERS GAVE US TROUBLE...SO WE MOVED IT...
