Committee for a Revolutionary Communist Party in Australia

RECONSTITUTE THE COMMUNIST PARTY OF AUSTRALIA ON THE BASIS OF MARXISM-LENINISM-MAOISM!

BUSH'S WAR. IF YOU ARE NOT WITH THE USA, YOU
ARE WITH THE 'TERRORISTS'.

RABBLE ROUSER NO. 46. SEPTEMBER 2001.

When the twin towers of the WTC collapsed on September 11, 2001, the US imperialists did not ask why they had been targeted or why that particular building. The emphasis is on collecting alliances around the world and preparing for war.

Within a week, F-15 fighter bombers, F-16 fighters, B-1 long-range bombers, a fleet of war-ships, left to join the substantial armed forces already in the Gulf. Troops in the USA have been placed on the alert as the USA prepares to wage war on Afghanistan, where the target Osama bin Laden is supposed to be hiding.

The Australian press has not disclosed the evidence that bin Laden is guilty if such evidence exists. What is significant for Australians is, that the Prime Minister has pledged all out support for the USA no matter what is in store. There is no difference between the political party in power, the Liberals, and the Opposition. The American people are demonstrating against the coming war and so are Australians. Build the movement.

Thousands of innocent people were killed on September 11, people going about their daily tasks. But the war contemplated will kill many more. The rubble in Afghanistan covers the bones of many British regiments and Russians as these two powers have tried to crush this country for more than a century. Afghanistan is situated in an important strategic position in the Middle East, right in the under-belly of Russia, in the centre of the richest oil bearing countries in the world. The Nazi armies of the German imperialists in World War 11 tried to capture Baku, but the Red Army defeated them. Today the western owners of the oil want to run a pipe line across Afghanistan but have been refused permission to do so. There is no Soviet Union and the Red Army now but a bunch of revisionist traitors who are allowing the US forces to get closer to Afghanistan. China also has pledged support for the US against 'terrorism' In Mao's China there would have been demonstrations against the war preparations.

President Bush said America was targeted for attack because we're the brightest beacon for freedom and opportunity in the world.... our financial institutions remain strong... Truth is that the world capitalist system was heading for a recession long before the attack on the WTC. Production is down in the USA and Japan and Europe.

Behind every war is an economic crisis. All capitalist crises are crises of over-production.

The basis and cause of economic crisis lies in the contradiction between the social character of production and the capitalist form of appropriation of the results of production. Capitalism strives to increase production to secure maximum profit and strives to reduce the purchasing power of the toilers whose standard of living the capitalist state drives down to the lowest possible minimum. The result is that every 8-10 years mountains of goods are stored while the workers are too poor to buy the goods back. One sure way of destroying over-production is to have a war. Ask any Veteran of WW11, how many years he was out of work before 1939.

Million of people in the world live on one dollar a day, millions do not have clean water, children starve to death from Sanctions on Iraq, people are starved for medicine to cure simple diseases. The list goes on. Imperialist states sitting on top of under developed countries, former colonies, whose bones are being picked for more and more profit.

The USA has bases in 50 countries so that their planes can roam the world, and their eye in the sky can spy on everyone.

Communists oppose 'terrorism'. Terrorist actions are taken by a few and do not involve mass movements of people. Terrorist actions by a few imply that they can change the world without involving the masses. Marxists hold that the masses make history. Once the masses are aroused against imperialism, imperialism will be defeated. There is no other way but to start at the beginning, organize and build a revolutionary political party of the proletariat, based on the teaching of Marxism-Leninism-Maoism.

The events of September 11.01 have resulted in racism being whipped up by the lackeys in the yellow press. Violent attacks on Muslims, on women and children, and the burning down of a Mosque, is a disgrace. The State is strengthening the Security forces, giving them more money and more power to spy on people particularly those active in opposing the WTO. The refugees rescued from a leaking boat by the crew of The Tampa are now being shipped to Nauru, they are being called 'terrorists' by the lunatic fringe.

Truth is that if the imperialists were not plundering the countries in the Middle East and killing the people, there would not be any refugees.

The Imperialists are preparing daily to attack Afghanistan, while on the borders of this country millions of people flee. Some reports say as many as 7 million men, women and children are already in great distress.

We cannot allow the imperialists to kill these people for oil, for the oil companies' ruthless carnage over almost 100 years.

NO MORE REGIMENTS FOR AFGHANISTAN.

DON'T GO.

MOTHERS, 'SAVE OUR SONS'.

PROTECT OUR SISTERS AND BROTHERS FROM THE MIDDLE EAST, WHO LIVE IN AUSTRALIA.

LET THE REFUGEES IN.

UNITE AND FIGHT IMPERIALISM.
