Urgently Needed: REVOLUTIONARY CLASS STRUGGLE

"the nothing-to-lose proletariat must lead the people to rise up in struggle against the system NOW"

introducing the RABBLE-ROUSER

Rabble-Rouser is an agitational newsheet from the Committee for a Revolutionary Communist Party in Australia. Despite its limitations, *Rabble-Rouser* aims to fan the sparks of the class struggle and the people's resistance to oppression into a raging torrent of revolutionary struggle.

The capitalist/imperialist system is based on oppression and exploitation, in Australia and throughout the world. No real change in the interests of the world's oppressed can come about until this system is overthrown and the rule of the proletariat and masses replaces the system's bourgeois dictatorship.

Only the revolutionary armed struggle of the masses in their millions, led by an authentic Communist Party guided by Marxism-Leninism-Maoism, can sweep away the old order and open the door to the communist future of a world without exploitation or oppression of any kind.

Rabble-Rouser seeks to create revolutionary public opinion in support of this People's War to seize power.

By enforcing a system based on oppression and exploitation, here and around the world, the Australian imperialists compel the people to resist. The hatred and suffering of the grass-roots people needs to be transformed into strength and the determination to build a revolutionary struggle which will overthrow the Australian imperialists and their flunkies.

With its continuing national oppression of Australia's indigenous peoples, with its concentration camps for Asian and other refugees, with its complicity in the heightened climate of violence against women, with its homophobia, with its new police state measures, with its mean-spirited welfare cuts, and with its brutal enforcement of the imperialist world order in Bougainville, East Timor and elsewhere, Australian imperialism has long been at war against the oppressed people in Australia, in the region, and around the world.

It Is Right To Rebel! declared the great Mao Tsetung. And that is what the people on the bottom of society — the class of modern slaves with nothing to lose but its chains — must do: rise up and throw off their oppressors

Yes, we *are* talking about revolution. Yes, we are saying that revolution is the *only* solution to the crimes the imperialist system metes out to the oppressed in Australia and the world over. In other countries, most notably Peru, our class brothers and sisters are waging People's War and dealing powerful blows to imperialism. In Australia we face the same central task: seizing power through People's War and establishing the rule of the proletariat and masses.

Hastening the advance of the world revolution through defeating Australian imperialism demands a vanguard communist party based on the proletarian ideology which today is Marxism-Leninism-Maoism. The formation of such a Maoist Communist Party is the immediate task facing the genuine communists in Australia.

The system and its enforcers must not get away with beating the people down. The nothing-to-lose proletariat must lead the people to rise up in struggle against the system NOW.

There is an urgent need for a revolutionary movement in Australia leading the people to fight back, moving the masses of people to battle the system in a way that is guided by revolutionary ideology and serves revolutionary aims. And through all this the revolutionary consciousness and organisation of the the masses must gain fighting experience in class struggle and be built up, with vanguard communist organisation at the core, preparing the revolutionary people to wage People's War when the conditions for that are ripe.

We must raise up the spectre of real, revolutionary communism—Marxism-Leninism-Maoism—in Australia and the world. **Let the ruling classes tremble at a communist revolution!**

May Day 2005

From the Resistance to the People's War in the Imperialist Countries

In the Day of the international proletariat it is necessary for the communist parties and organizations to give the right indication to the proletariat and people's masses about which task is actually central.

The fundamental thesis we state is that before the infinite war unchained by the US imperialism, within a relationship of collusion and struggle with the other imperialist powers, in the name of the world campaign against the "terrorism", we must respond making advance a new tide of the world proletarian revolution, taking as theory and guide the Marxism-Leninism-Maoism and advancing in the constitution, building and development of new communist parties, in function of the establishment, initiation and development of People's Wars in all the countries in the world.

We support the people's wars, from Peru to Nepal, from India to Turkey. We support the Iraqi and Palestine resistance and the anti-imperialist struggles in Asia, Africa and Latin America.

Inside the imperialist countries, US first, the reactionary process and the militarization are advancing. The states participating the imperialist war as well as those currently "not-aligned" carry out an assault against the struggle movements, the revolutionary and proletarian organizations, the communist parties and organizations. The working and proletarian masses, the movements against the war, the fascism, the imperialist globalization oppose to the plan of the imperialism, of its states and governments, an increasing and large resistance, tough uneven and going through up and under, with workers strikes and big demonstrations. The reformist parties, the pacifist and opportunist tendencies, work to keep these movements at the stage of the resistance, of the peaceful mass protests and to not put in argument the imperialist laws and the imperialist order, that are the cause producing war, new nazi-fascism, worsening condition of work and life for the proletarians and people's masses.

In Italy we struggle to overthrow the government of Berlusconi, loyal ally of Bush and Blair, active participant in the war and the military occupation against the Iraqi people, but we struggle also against any imperialist government formed by the current parliamentary opposition of Prodi and Bertinotti.

The PCm builds the Cobas for the class union, the Revolutionary Proletarian Feminist Movement, the youth organization Red Block, the Proletarian Red Relief, the Nepal Solidarity Committees and any other mass organization the proletarian and people masses need to carry forward this struggle.

We build the PCm as vanguard detachment of the working class, leading its real movement. We are the partisans of the People's War and we point out that also in the imperialist countries only such war can ideologically and politically forge genuine communist parties.

Therefore, we work in the fire of the class struggle and closely linked with the masses in order to initiate the people's war in our country, summing up the historic experience of the great anti-fascist partisan Resistance and drawing the positive and negative lessons of the revolutionary struggle in our country.

We fight all the revisionist positions in our country, in Europe and in the imperialist countries, that, in various forms, propose once more the peaceful way and the parliamentarism.

The PCm is integrant part of the Revolutionary Internationalist Movement and struggles inside it as well as in the international communist movement for the red line to win against any and each form of revisionism and opportunism, in the march toward a new Communist International.

Death to imperialism!

The imperialist war can be stopped only if the People's War advances!

Long live the proletarian internationalism!

Long live the Marxism-Leninism-Maoism!

Long live the Revolutionary Internationalist Movement!

Long live the world proletarian revolution!
