

The following text has been proposed by the Nepal Solidarity  
Committees, Italy and approved by the workers of Taranto

To the Nepali People  
To fighters of the People's War  
To the United Revolutionary People's Council  
To the Communist Party of Nepal (Maoist)  
To the Chairman Prachanda

We workers,  
we support the liberation struggle that the people's masses, mostly  
poor peasants, the proletarians, the youth and the women have been  
carrying forward during the last 9 years in Nepal, raising the flag  
of the rebellion, because they do not want be poor and oppressed,  
they do not want be the country of the super-exploited working and  
prostitute children, they do not want be the country of the violence  
on the women, the country where the poor are poorer and the rich are  
richer, they do not want be the country exotic and exclusive  
destination for mountaineer tourists in the shade of a feudal regime  
servant of the imperialism.

Their liberation struggle has won two third of the country, it has  
freed the energies of the masses and their need of freedom and  
democracy, it has established the basis for the people's government,  
it has encircled the state capital, Kathmandu, where it has mobilised  
the workers in strike, the masses of the students, the progressive  
intellectuals, the social strata seeking the national self-  
determination.

We denounce the king Gyanendra, the murderer of his own relatives,  
and the coup he made in the past weeks, sacking the parliament and  
the ministers that he ruled and controlled, with the explicit aim to  
launch an extermination war against the rebelling masses, helped by  
the western imperialism, mainly the US, and by the Indian government,  
that seeks to continue its hegemony on this country. A regime that  
bombs and destroys the villages in its own country in order to save  
it bloody rule.

Now more than ever it need to break the silence on what is happening  
in this country, to take side with the Nepali masses and their  
liberation war, to support a mobilise in every form.

We cannot remember these proletarian and people only when the  
seaquake and the negligence of the world rulers bring to light the  
scenes of poverty and death they live everyday.

For us, for the workers to be on the same side with this oppressed  
suffering humanity means support those in these countries struggle to  
end the existing state of the things.

All the imperialists, including the Berlusconi government, have  
launched an endless war against the oppressed people throughout the  
world. While its epicentre is now the Middle East, from Iraq to  
Palestine, its goal is to dominate the world and to perpetuate the  
war and the oppression.

Before them, those who oppose the wars of the world owners must give  
the maximum support to those are fighting a battle for the death or  
the life against the imperialism, paying with their blood their  
liberation struggle to break the chains of the exploitation and of  
the imperialism in every corner of the world.

**Maoist youth march in solidarity with People's War in Nepal.  
Statement: Redblock and Nepal Solidarity Committee (Palermo, Italy)**

Responding to the call of the Nepal Solidarity Committees promoted by the Maoist Communist Party - Italy (PCm), to go on the street and demonstrate to support the people's war in Nepal, that is celebrating its 9th anniversary, the Maoist youth of "Redblock" organized a manifestation, and vain have been the attempts of the police to stop soon the march that ended in front of the US Consulate.

Friday 18th February 2005, a group of Maoist youth, at the head of hundred other young people marched against the imperialist war and in support the people's war in Nepal.

Young people and students in Palermo, so as in other Italian towns, continue to protest against the warmonger and anti-popular Berlusconi government.

Such government carries on a lot of horrible reforms, like that of the Minister Moratti, which aims at destroying the public school and below the funds to the school to give them to the army so as to continue the occupation of Iraq.

The comrades shouted different slogans like: "Imperialist war can be stopped, only if people's war advances", "From Nepal to Peru, people's war is advancing even more".

During the demonstration the police began the wicked repression like servants of power. In fact just after a mile the police tried to stop the comrades and wanted to remove the big banner on which was written: "Against the imperialist war, support the people's war in Nepal".

The Maoists defended the banner and the right to demonstrate and after moments of tension, during which the policemen prepared to assault with their usual manner of wearing shields and helmets, the march ended in front of the American consulate

There were chanted a lot of slogan against the USA and its imperialist war, against the Italian government and its "police state" that is destroying the fundamental rights of the people, specially the freedom of opinion, the right to write own ideas and the dissent against a state that is advancing in the construction of a regime of modern fascism that oppresses the masses.

The comrades denounced to the journalists the gravity of the police attitude that remembers the fascist censorship.

To resist it's not a crime, their repression don't stop but will feed our rebellion!
